

## Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

### Roma Store

report date 23 Jul 2013

Yarding Change 5800  
-4400

comparison date 16/07/2013

Numbers fell 50% from the previous week's large yarding. Patchy rainfall across the region and in the southern states appeared to attract more restocker buyers to the sale, and prices improved for the light weight steers. It was a mixed quality yarding containing large numbers of calves. Solid demand from New South Wales restockers pushed calf averages up by 15c, while weaner steers gained 8c/kg. Both medium and heavy weight steers improved in price across most classes, while light heifers found good competition from local and southern restockers, processors, and feedlot buyers.

Mixed sex calves sold to 190c and averaged 175c, up 15c/kg. Light weight yearling steers made to 202c and averaged 176c, up 8c, while plainer sorts averaged 143c, up 17c/kg. Medium weight yearling steers to feed made to 176c and averaged 167c, up 4c, while D muscled lines averaged 149c, up 5c/kg. Those to restocker buyers hit 186c and averaged 174c, up 8c, while plainer lines averaged 139c, down 8c/kg. Heavy weight yearling steers to feed topped at 176c and averaged 174c, up 15c, while D muscled sorts averaged 147c, up 6c/kg. Those going back to the paddock reached 181c and averaged 165c/kg.

Light weight yearling heifers to feed made to 140c and averaged 139c, up 22c, while those to southern processors earned to 143c and averaged 135c, up 5c/kg. Those to restockers hit 150c and averaged 137c, up 5c/kg. Medium weight yearling heifers to feed sold to 146c and averaged 134c, while processors paid up to 132c and averaged 127c, down 14c/kg. A few medium weight yearling heifers to restockers averaged 150c, up 5c/kg. Heavy weight yearling steers to processors averaged 130c/kg. The grown steers sold between 141c and 152c/kg. Cows and calves sold to \$650 and averaged \$510/unit.
