

Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

Roma Store

report date 04 Oct 2016

Yarding Change ²⁴⁶⁸/₈₆₈

comparison date 27/09/2016

The number of stock penned saw a small increase as parts of the supply area start to dry out following the good falls of rain. Overall quality was generally good, with large runs of light weight cattle included in the line-up. A good panel of restocker buyers and crop fatteners plus feeder operators and export processors competed in a very strong market, with crop fatteners in direct competition to feeder operators across most weight ranges.

Light weight yearling steers returning to the paddock made to a top of 454.2c with a large sample averaging 426c/kg. Medium weight yearling steers to feed averaged 407c while those going onto crop averaged just under 409c and made to 426.2c/kg. Heavy weight yearling steers mostly sold around 377c/kg. Very light yearling heifers sold to restockers at a top of 424.2c and averaged 416c, while a large sample of 200-280kg heifers averaged 395c and made to 414.2c/kg. Medium weight yearling heifers to feed averaged 368c and made to 384.2c/kg.

The largest number of medium weight grown steers to feed averaged 338c and made to 360.2c/kg. A small sample of heavy grown steers to export slaughter averaged 320c and a handful of bullocks made to 313.2c/kg. Medium weight 3 score cows averaged in the mid-240c range and a few good heavy cows made to 265c/kg. Heavy bulls made to 294.2c/kg.
