

Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

Dalby

report date 11 Oct 2017

Yarding Change ³⁹⁸⁰
2234

comparison date 04/10/2017

Similarly to some other markets, the supply of stock more than doubled the previous week's numbers. Overall quality was good with a good representation of most classes. A fair panel of buyers covering all categories was present and operating. Restockers lifted average prices on steer calves and light weight yearling steers by 5c to 7c/kg. Medium and heavy weight yearling steers to feed improved by 4c to 7c/kg. Light weight yearling heifers to feed averaged 16c dearer and stronger supermarket support lifted medium weight yearling heifers to feed by close to 20c/kg. However, the wet weather money around the previous sale was absent and heavy grown steers and bullocks lost some of the previous week's gains to average 18c to 20c/kg less. This trend flowed onto the cows with most 8c to 13c cheaper against improvements of 20c/kg the previous week.

Steer calves returned to the paddock at a top of 398.2c with most around 360c and heifer calves made up to 340c/kg. Light weight yearling steers sold to restockers at an average of 351c with a few pens up to 373.2c/kg. Medium weight yearling steers to feed made up to 318.2c to average 305c and heavy weights to feed made up to 294.2c to average 288c/kg. Light weight yearling heifers mostly sold in the 290c range with some returning to the paddock at 319.2c/kg. A good supply of medium weight yearling heifers to feed averaged 285c and sold up to 301.2c/kg.

Heavy grown steers to export slaughter made to 285.2c to average 273c and bullocks mostly sold around 274c with some up to 281.2c/kg. Medium weight 2 score cows to processors averaged 194c while those returning to the paddock averaged 199c and made up to 212.2c/kg. A fair selection of good heavy cows made to 225.2c with most around 218c/kg. Heavy bulls made up to 276.2c/kg.
