

## Detailed saleyard report - cattle

Market information provided by MLA's National Livestock Reporting Service

### Roma Store

report date 10 Jun 2014

Yarding Change  $\frac{6100}{714}$

comparison date 03/06/2014

A good number of local cattle were yarded, while mixed quality consignments were also penned from across western parts of Queensland including Winton, Barcaldine, Quilpie, and Wyandra. Good quality light weight yearling steers sold well, while medium weight steers reached 190c/kg, but secondary lines were discounted in places. Solid feedlot buyer competition helped prices improve for light and medium weight yearling heifers, but the mixed quality of those to southern processors and restockers resulted in prices 3c/kg cheaper on average. Cows and calves sold to \$585/unit.

Light weight yearling steers sold to 204c/kg and averaged 180c, while plainer lines averaged 155c/kg. Medium weight yearling steers to feedlot buyers hit 190c and averaged 178c, down 11c/kg, while those returning to the paddock topped at 192c and averaged 190c, up 5c/kg for better quality sorts. Heavy weight yearling steers to feed made to 187c and averaged 183c, unchanged in price. Light weight yearling heifers to feedlot buyers topped at 164c and averaged 145c, up 3c/kg, while those to processors reached 148c and averaged 138c, down 3c/kg. Those to restockers made to 147c and averaged 136c, down 3c/kg. Medium weight yearling heifers to feed sold to 163c and averaged 159c, up 22c/kg. Heavy weight yearling heifers made to 154c and averaged 145c, unchanged in price.

A few grown steers sold between 163c and 177c, while plainer sorts averaged 140c/kg. Light and medium weight cows sold to 94c and averaged between 74c and 88c/kg. Medium weight 3 score cows sold to 117c and averaged 106c, down 16c/kg.
