Welcome to our 8th on-property sale, 2024

WELCOME TO OUR 2024 catalogue. As I write this we have had another 20mm of rain, making the last 6 mths some of our best ever, a far cry from last spring when we were surrounded by bush fires. Such are the vagaries of climate and our relationship, as farmers, with the weather.

The beef industry has been very slow to gather any momentum this year, however a very late break in the South does seem to be having an effect and the presence of Southern processors at Northern sales is bringing some competition to the market. Hopefully this trend continues.

The bulls this year are a very even bunch which made cataloguing quite difficult, but it means there are good bulls right to the end of the catalogue. This will be our last group of Techno bulls and our first draft of Kingswood sons after last year's spectacular

introduction to the industry. Kingswood has been great to use handling large numbers of cows while maintaining condition and he's as sound today as he was when we bought him. His sons are long and thick and sound footed and while his EBVs suggest otherwise, they are not overly heavy BW and are easily calved. We are looking forward to about 25 of his daughters calving this spring.

We welcome you to come and check out our herd at any time. I think it makes bull selection easier if you understand the cow herd backing your selection and have a chance to talk about your needs in a less hectic environment than a bull sale.

We look forward to seeing you on the 29th August.

Regards,

Steve and Deb

Reids

NOTES TO BUYERS

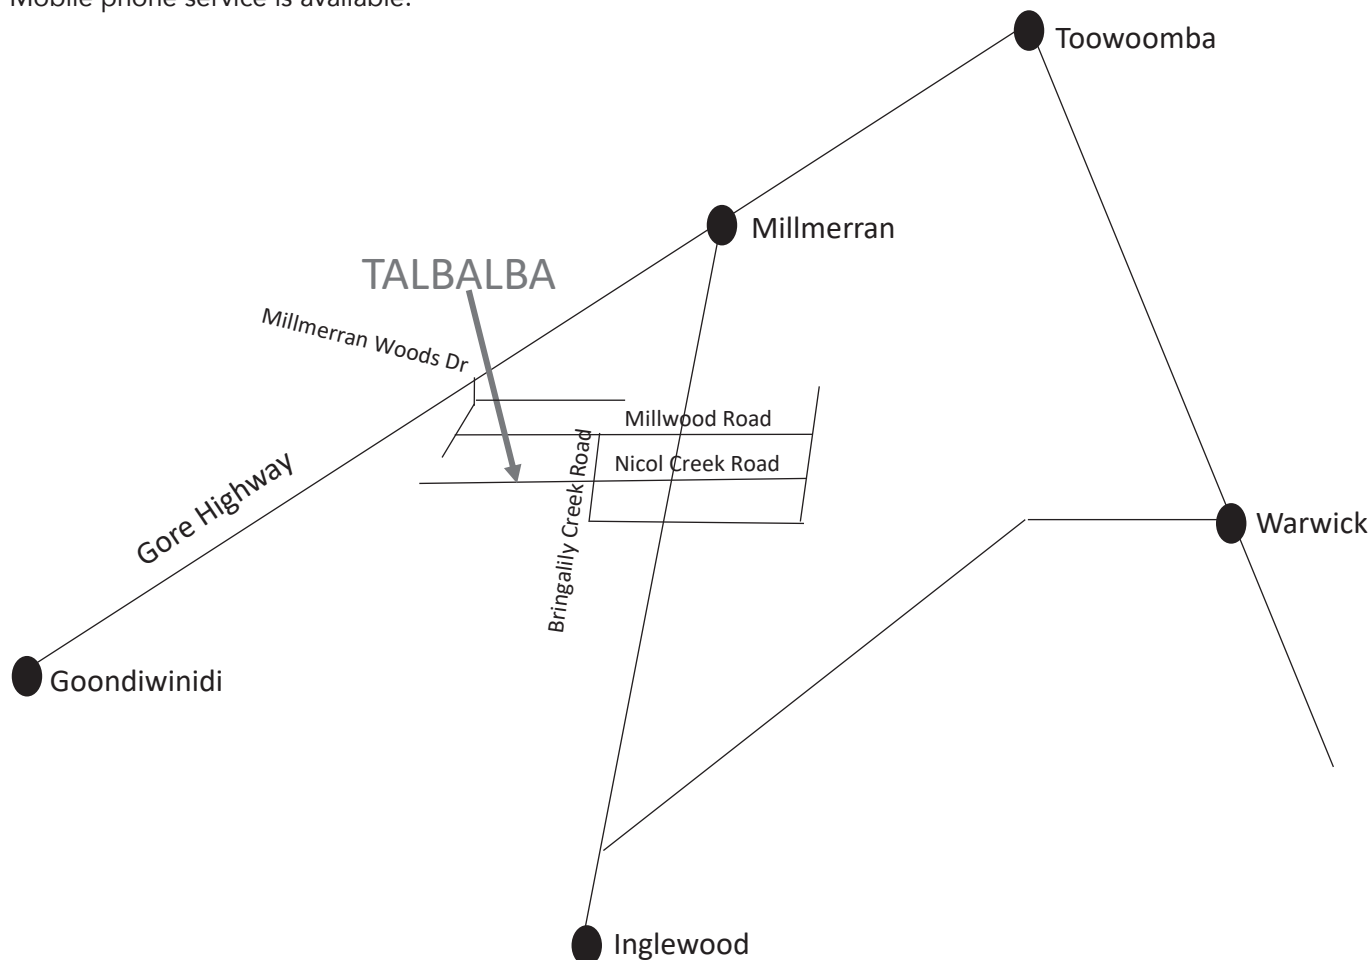

Directions: We are located at 1392 Nicol Creek Road, Bringalily, QLD.

From Millmerran head south towards Inglewood 25 km, turn right (West) at Nicol Ck Rd, continue 7km and Talbalba is on your right.

From Goondiwindi take Gore Highway head towards Millmerran 123 km, at Rifle Range turn right into Millmerran Woods Dr 1.5 km then left into Millwood Road 6.5 km, right into Bringalily Creek Rd 4 km, right into Nicol Ck Rd, 4 km and Talbalba is on your right.

Signs will be displayed on sale day.

Mobile phone service is available.

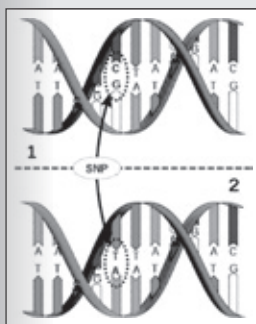

Inspection may be arranged prior to sale day by contacting the vendors or our agents. Visitors are always welcome. Inspection from 8am Sale day.

Delivery: Bulls will be delivered free to your door within 500km radius of "Delemere" or by prior arrangement with us. Please arrange Insurance for your purchase as all care will be taken but no responsibility.

Fertility: All bulls have been semen tested by Dr Britten Lockie, Allora on 02/06/2024 and Morphology tested by Australian Veterinary Semen Morphology, Broome.

GENOMIC TESTING

All bulls have had DNA collected and a 100K, Low Density SNP produce by Neogen at Gatton.

This guarantees:

- Bulls with Genomics in traits observed (Breedplan) are sire verified and tested free of known genetic conditions.
- The accuracy of the EBVs will go to the next level with the addition of Genomic information.

Health: All bulls have been vaccinated with Tick fever Trivalent, 7 in 1, Pestigard, B.E.F (3 day sickness) and Vibrio. We recommend purchasers continue these vaccination programs with a yearly booster. All bulls tested Pestivirus (P.I) negative by Neogen laboratory, University of Qld. No bulls have been hoof trimmed.

Vaccination / Treatment history	
7 in 1	02/06/2024 and 21/07/2024
Vibrio	02/06/2024 and 21/07/2024
Pestigard	02/06/2024 and 21/07/2024
B.E.F (3 day sickness)	2 doses 2023 and booster 21/07/2024
Tick fever trivalent B:232013	23/07/2023
Cyductin backline drench	21/06/2024

Tick Fever note:

Lots 39 and 60 treated with Imidox on 11/08/2023 for severe reaction to Tick fever vaccine so no longer immune.

Horn Status	
H	Horned Animal (All horned bulls have been dehorned)
H#	Horned animal with poll blood in first 6 generations
HPR	Herd Performance Recorded
P	Polled
S	Poll animal with scurs (scurs have not been touched and usually are insignificant)

Poll Test: The Australian Poll Gene Marker test is available from the Animal Genetics Laboratory at the University of Queensland and Zoetis Animal Genetics. Hair, blood, tissue or semen samples can all be used to perform the test.

The results will describe the percentage chance of the most likely genotype. The genotypes that are reported are homozygous polled (PP), heterozygous polled (PH), and homozygous horned (HH). The accuracy of the test result is reported alongside the most likely genotype. The accuracy will range from 90% to 99%. If the test does not return an informative result, the accuracy is less than 90%, the result will be returned as Not Determined (ND).

Homozygous Polled bulls will dehorn all of their progeny irrespective of the mother’s horn status.

Heterozygous Polled bulls dehorn 75% to 100% of their progeny when used over Poll cows depending on the % of homozygous cows. They dehorn 50% of their progeny when used over Horned cows.

Handling your new bull: Our bulls are run in groups of about 20 in open paddocks and are not used to being on their own. While this does ensure that they can compete and perform in the paddock, it can make them nervous when they are transported individually. If your bull doesn’t settle after acclimatising into a new mob please let us know.

Rebate: A rebate of 3% of the purchase price will be allowed to outside agents introducing buyers in writing 24 hours prior to the sale and settling on their behalf within 7 days from date of sale. Outside agents attending the sale in person with buyers will be eligible for a \$200 expenses reimbursement.

Insurance: Insurance representatives will be in attendance. Cover can be arranged from the fall of the hammer. There is no vendor insurance on Sale bulls.

GST is to be added onto the purchase price at the fall of the auctioneer’s hammer.

Buyer’s Instructions: All buyer’s instructions must be in writing and no verbal instructions will be accepted. A buyer’s instruction slip is included in the catalogue for your convenience.

Refreshments: Our local Kindon branch of ICPA , Isolated Children’s Parents’ Association, will be catering Morning Tea and Lunch at this year’s sale as a fundraising event. On completion of the sale please join us for complimentary drinks.

Safety: All persons enter the bull pens at their own risk. Children under 14 to be accompanied by an adult and must not enter bull pens. Bulls are generally quiet to handle but Sale day is stressful and may cause unpredictable behaviour.

Disclaimer: Whilst all due care is taken the owners, employees, agents and sales staff accept no liability for any accidents that may occur to persons or property on Sale day.

AuctionsPlus

How to Register and Bid on AuctionsPlus

- 1 Go to www.auctionsplus.com.au to register at least 48 hours before the sale.
- 2 Select “**Sign Up**” in the top right hand corner.
- 3 Fill out your name, mobile number, email address and create a password.
- 4 Go to your emails and confirm the account.
- 5 Return to AuctionsPlus and log in.
- 6 Select “**Dashboard**” and then select “**Request Approval to Buy**”.
- 7 Fill in buyer details and once completed go back to Dashboard.
- 8 Complete buyer induction module (approx. 30 minutes).
- 9 AuctionsPlus will email you to let you know that your account has been approved.
- 10 Log in on sale day and connect to auction.
- 11 Bid using the two-step process – unlock the bid button and bid at that price.
- 12 If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

BREEDPLAN INFORMATION

Breedplan is a performance evaluation programme that describes the genetic merit of bulls for a number of commercially important traits. This genetic merit is given as an Estimated Breeding Value (EBV) for each trait. The EBVs in this catalogue are Hereford Group Breedplan EBVs and can be directly compared with Hereford Group Breedplan EBVs from other herds.

When comparing bulls, the EBV of each bull can be compared against the breed benchmark of zero (0), or against the current breed average EBV which are shown at the end of this entry.

Using EBVs to compare bulls:

CE DIR (%) – Calving ease direct EBV estimates the genetic difference in the ability of a sire's calf to be born unassisted from 2 yr old heifers. Higher, more positive calving ease direct EBV's are more favourable. Eg a bull with an EBV of +5.0% would be expected on average to produce 3% fewer difficult calvings from 2 yo heifers than a bull with -1.0% (6% difference between the sires then halved as the mother contributes the other half of the genetics).

CE DTRS (%) – Calving ease daughters EBV's are estimates of genetic differences in the ability of a sire's 2 yr old daughters to calve without assistance. Higher, more positive calving ease daughters EBV's are more favourable. For those with self replacing herds, selecting heifer bulls with above average CE DIR and CE DTRS is especially important, both for reducing calving problems in the current heifers and those in the future.

Gestation Length (Days) – Gestation length EBV's provide an estimate of genetic differences between animals in gestation length, and are expressed in days. Lower or more negative Gestation Length EBBV's are considered to be more favourable. Calves which have a shorter gestation length are generally smaller (lower birth weight) and thus the dam is able to deliver her calf with less difficulty. Note too short GL (small premature calves) may not survive.

Birth wt EBV – the lower the birthweight EBV, the lighter is the birthweight potential of the progeny.

200 day wt – indicates the relative weight advantage of a sire's progeny at 8-10 months of age.

400 day wt – indicates the relative weight advantage of a sire's progeny at yearling age. This EBV is important if selecting sires for the domestic/supermarket trade.

600 day wt – indicates the relative weight advantage of a sire's progeny beyond yearling age. This EBV is important if selecting sires to breed steers for the grainfed export markets.

Mature cow weight EBV (kg) – is based on the cow weight when the calf is weighed for weaning, adjusted to 5 yrs of age. This EBV is an estimate of the genetic difference in cow weight at 5 yrs of age and is an indicator of growth at later ages and potential feed maintenance requirements of the females in the breeding herd.

Milk EBV – reflects extra calf weight at weaning due to the genetic influence a sire has on his daughters milking and mothering ability.

Scrotal Size – bulls with positive (+) EBVs are expected to produce male progeny that are relatively more fertile and to produce female progeny that reach puberty earlier than will the progeny of negative (-) EBV bulls.

Days to Calving EBV (days) – are estimates of genetic differences between animals in the time from the start of the joining period (i.e. when the female is introduced to a bull) until subsequent calving. A negative EBV for days to calving indicates a shorter interval from bull in date to calving and therefore higher fertility.

Carcase weight (kg) – is based on abattoir carcass records and is an indicator of the genetic differences in carcass weight at 650 days.

EMA – bulls with positive (+) EBVs are expected to produce progeny with larger eye muscle area than progeny with negative (-) EBVs.

Fat Depth – bulls with negative (-) EBVs are expected to produce progeny that will be relatively leaner than will bulls with a positive (+) EBV.

Carcass Yield (RBY%) – bulls with positive EBVs for RBY% can be expected to produce progeny that are higher yielding @ 300kg HSCW than progeny from negative sires. Selection for this trait needs to be balanced with other growth and fertility traits.

Intra-muscular fat % (IMF%) – selection of bulls positive for IMF will improve marbling performance of their progeny. For a significant increase in marbling score, above average IMF sires need to be joined to above average IMF females.

Selection Indexes – Selection Indexes indicate the possible extra dollars earned per cow joined in self replacing herds targeting a particular market.

Northern Self-Replacing Index – Estimates the genetic differences between animals in net profitability per cow joined in a commercial self replacing herd targeting the domestic market.

This index is suitable for use by both straight bred Hereford herds and in cross breeding herds where Hereford bulls are being used over a Bos Indicus cow herd.

Daughters are retained for breeding.

Northern Baldy Terminal Index – Estimates the genetic difference between animals in net profitability per cow joined in a commercial crossbred herd using Hereford bulls over Bos Indicus females where all progeny are slaughtered.

AVERAGE EBVs FOR 2022 BORN HEREFORD CALVES (HEREFORD GROUP BREEDPLAN)																
Calving Ease DIR (%)	Calving Ease DTRS (%)	Gestation Length (days)	Birth Wt. (kg)	200 Day Wt (kg)	400 Day Wt (kg)	600 Day Wt (kg)	Mat Cow Wt (kg)	Milk (kg)	Scrotal Size (cm)	Days to Calving (days)	Carcase Wt (kg)	Eye Muscle Area (sq cm)	Rib Fat (mm)	Rump Fat (mm)	Retail Beef Yield (%)	IMF (%)

Heifers calved at 22-24 months PTIC.

Reference Sires

Days Kingswood Q139 (PP)

Outstanding carcass sire in the breed. Trait leader for all growth stages, gestation length and scrotal size. Moderate, sound and functional.

Koanui Techno 3062 (PP)

High growth NZ sire who excels in carcass, fertility and maternal traits. Trait leader for all growth traits, milk and scrotal EBVs.

Talbalba Techno R036 (S)

High growth sire who increases CE, milk, fertility and carcass traits. Mother is the outstanding H47 cow.

Talbalba Genesis R027 (P)

Calving ease bull who increases carcass and moderates maturity patterns. Used over heifers.

Days Horizon M028 (PP)

Calving ease bull who increases carcass traits, fertility and milk and decreases mature cow weight. Used over heifers.

Wirruna Phuket P271 (PP)

Calving ease bull who adds muscle, marbling and fertility.

Future Sires

Days Landlord T064 (PP)

Herefords Australia Super Sire, retained by Days with a ½ share purchased by Talbalba. Soft, athletic sire strong in all traits and ranking in the top 1% for all indexes.

Colyer Guardian 1015 ET (P)

Low birth weight US sire with curve bending growth and muscle. Sons for sale 2025.

Lot 1

TALBALBA TECHNO T062 (AI) (PP)

QUEENSLAND LIVESTOCK AGENTS ASSOCIATION LIMITED

STANDARD STUD STOCK - AUCTION TERMS AND ~ CONDITIONS OF SALE

IMPORTANT NOTICE

All bids shall be treated as offers made upon the following Terms and Conditions of Sale and all persons present are admitted to attend the sale on the basis that they have notice of these Terms and Conditions.

1. The highest bidder shall, subject to Condition 2, be the purchaser provided that the vendor reserves the right to bid either by himself or through his agent or auctioneer and should any dispute arise among the bidders for any lot, during or immediately after sale of the lot, it shall be settled at the auctioneer's absolute discretion who may, should one of the disputants advance, put the lot or lots up again. The bidding from time to time shall be regulated by the auctioneer and no bid shall be retracted.
2. The sale will be conducted on a "Sale" or "No Sale" basis whereby the lot for sale shall be knocked down to the highest bidder, but the sale will be subject to the acceptance of the highest bid by the vendor who will immediately after the fall of the hammer declare "Sale" or "No Sale". Should the vendor reject the bid of the highest bidder such bidder will have the right of first refusal of the lot at the vendor's nominated price for one hour after the lot has been passed out of the ring on the Terms and Conditions herein set forth in so far as they shall apply.
3. The details of the purchaser, the purchase price and the lot sold as recorded by the sale clerk for and on behalf of the auctioneer shall be equally binding on both purchaser and vendor.
4. The auctioneer expressly reserves the right, without giving any reason therefore, to:
 - (a) Refuse to acknowledge any bid;
 - (b) Withdraw any lot or lots before or during the sale;
 - (c) Exclude any person from the auction venue should it think fit.
5. Each lot in all cases shall be at the risk and expense of the purchaser, upon acceptance of his bid by the vendor or upon acceptance of the highest bidder's offer by the vendor whichever shall be the earlier.
6. Except as expressly provided in these Terms and Conditions of Sale no guarantee or warranty shall be given in respect of any lot sold under these Conditions as to pedigree, sex, age, breeding condition or otherwise howsoever, and no guarantee, warranty or condition whatsoever shall be implied from any affirmation made before or at the time of the sale, or from any circumstances of the sale, but in all cases where a guarantee is intended the same shall attach and be enforceable only if reduced to writing before delivery of the lot and signed by the vendor or by the auctioneer acting as agent for the vendor, and the absence of such writing shall be conclusive evidence in case of dispute that no guarantee warranty or condition whatsoever was given or implied.
7. In the event of any dispute in respect to the sale of any lot:
 - (i) The purchaser shall nevertheless be obliged to pay to the auctioneer the full purchase price and any other moneys or interest payable by the purchaser in accordance with these terms and conditions;
 - (ii) The vendor and the purchaser shall resolve the dispute between themselves;
 - (iii) The auctioneer shall have no liability or responsibility in regard to the dispute; and
 - (iv) No lot shall be returned to the auctioneer and the purchaser shall indemnify the auctioneer for all costs, expenses and damages which the auctioneer is put to or incurs by reason of the purchaser so doing.
8. The name of the vendor for whom the auctioneer acts is acknowledged to have been furnished to purchasers prior to sale and further particulars will in all cases be furnished to a purchaser if required - the case of any dispute the remedy of the purchaser shall be against the vendor only and in no case or under any circumstances against the auctioneer who is to be regarded for all intents and purposes as agent for a disclosed principal.
9. (a) **PAYMENT** - Unless prior credit arrangements have been made in writing with the auctioneer the full purchase price for each lot shall be due and payable to the auctioneer in cash upon acceptance of the highest bid or the highest bidder's offer by the vendor and prior to delivery. Notwithstanding that delivery is given to or possession obtained by the purchaser or his representative prior to the payment of the purchase money in full the property in any lot which is sold shall not pass to the purchaser until the full purchase price and all cheques, promissory notes, bills of exchange, acceptance orders or drafts given in connection with such payment have been paid and liquidated, and until purchase shall pass, the purchaser shall hold such lot as bailee, provided that in all cases should such payment not have been made and liquidated within 14 days of the date of the sale the auctioneer reserves the right to:
 - (i) Rescind the contract on behalf of the vendor and repossess and resell any lot;
 - (ii) Recover from the purchaser interest upon the purchase price at a rate per annum which aggregates the 90 day Bill Rate plus two percentum. For the purposes of this condition "the 90 day Bill Rate" is the rate published regularly in the Australian Financial Review, expressed as a percentage per annum. If at any time the Financial Review ceases to publish a 90 day Bill Rate, the auctioneer shall determine and advise the purchaser of the interest rate to apply for the purpose of this condition.
- (b) The auctioneer is selling as the del credere agent of the vendor and the full purchase price of any lot sold shall be payable by the purchaser to the auctioneer and be fully recoverable by the auctioneer in its own name.
10. If the purchaser shall neglect or fail to comply with any of the within conditions, any lot purchased by him may be immediately resold by public auction or private contract, with or without notice, at the risk of the former purchaser, who will be held responsible for all loss and expenses arising out of such resale, and shall not participate in any profit accruing therefrom.
11. Any vendor or purchaser removing the sale number from any lot after it has been sold will fully indemnify all affected parties for any loss, costs or damage should the lot be wrongly delivered.
12. The purchasers, if more than one, shall be jointly and severally bound by these Terms and Conditions, and shall jointly and severally carry out and perform same.
13. Any person who advances a bid on a lot shall do so on the expressed condition and understanding that should that person's bid be the highest bid and such bid is accepted by the vendor, then that person will be held personally liable for the price so agreed upon, regardless of the fact that that person may be acting on behalf of another party, either disclosed or undisclosed to the vendor or the auctioneer, provided however, that this Condition shall not in any way negate the vendor's right to claim against any principal and in such case the bidder's liability shall be construed to be by way of guarantee.
14. The auctioneer may, should it think fit, make arrangements on a purchaser's behalf for the feeding, watering, trucking, shipping of and general attendance to any lot after sale but no responsibility will be accepted by the auctioneer and all such services will be at the purchaser's risk and expense.
15. No lot will be delivered until the sales invoice has been checked and signed by the purchaser or his duly authorised representative.
16. (a) Each lot in all cases shall be sold with all faults, if any, and excepting those conditions and warranties implied by the Trade Practices Act or any applicable State legislation which cannot be contractually excluded and excepting conditions and warranties expressly contained in these Terms and Conditions of Sale, any express or implied condition, statement or warranty, statutory or otherwise, is hereby excluded. The auctioneer is not liable in respect of any error, misdescription or omission in any particulars appearing or stated regarding the descriptions or pedigrees of any lot offered for sale and no such error, misdescription or omission shall entitle the purchaser to annul the sale or reject the lot or claim any compensation, damage or abatement in price.
- (b) Each lot will be sold subject to passing all veterinary tests required by the law of the State or country to which the purchaser intends to transport that particular lot, such tests to be undertaken at the purchaser's expense and concluded immediately following the sale. In the event of a lot failing to pass these tests, the sale shall be null and void, any purchase moneys paid by the purchaser shall be refunded and property in the lot shall revert to or remain with the vendor.
17. **GUARANTEES OF FERTILITY**
- 17.1 **BULLS.** Save and except for calves at foot, all bulls are guaranteed breeders and to so prove within six months of the date of sale or by reaching the age of 30 months whichever date shall be the later.
- 17.2 **FEMALES.** Save and except for female calves at foot, all females are guaranteed to be in calf or go into calf within six months of the date of sale or by the age of 30 months whichever date shall be the later. A positive pregnancy test certified by a qualified veterinary surgeon shall be sufficient evidence that the animal is in calf.
- 17.3 Claims under Clauses 17.1 and 17.2 guarantees of fertility shall be made to the vendor within six months from the date of sale or prior to the animal entering a quarantine area other than on the vendor's property.
- 17.3.1 All claims must be accompanied by a veterinary certificate which shall clearly identify the basis of the claim.
- 17.3.2 Infertility resulting from injury or disease occurring after the sale of the animal shall not be covered by this guarantee.
- 17.3.3 The vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. In the event of the animal being proven fertile within the period, the costs incurred shall be borne by the purchaser. In the event of the animal not being proven fertile within the period the costs incurred shall be borne by the vendor.
- 17.4 **LIABILITY OF A VENDOR.** Except for costs defined elsewhere in the conditions of sale, the liability of a vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal(s) or to provide mutually agreed upon replacement animals.
- 17.5 **REFUNDS.** In the event of a claim being substantiated and the purchase price being refunded, the animal/s shall automatically become the property of the vendor and be returned to him or disposed of according to his instructions at his expense.
- 17.6 This guarantee shall be voided by the purchaser if
 - (a) The animal is returned to the vendor:
 - (i) in poor physical condition or with any injury;
 - (ii) tests carried out on behalf of the vendor within fourteen days of such return proved positive to any diseases which may affect the animals fertility or ability to breed naturally; or
 - (b) the purchaser has collected and stored semen from a bull or embryos from a female.
- 17.7 In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser and the auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other monies or interest payable by the purchaser in accordance with these Terms and Conditions.
18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects
- (b) If any vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses, or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
19. **DELIVERY** - Except at the discretion of the auctioneer no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.
20. In these Conditions:
 - (a) References to "Auctioneer" shall be taken to mean as the context so admits, the selling agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot;
 - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1;
 - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;
 - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor prior to the animal entering a quarantine area other than on the vendor's property.
- 17.3.1 All claims must be accompanied by a veterinary certificate which shall clearly identify the basis of the claim.
- 17.3.2 Infertility resulting from injury or disease occurring after the sale of the animal shall not be covered by this guarantee.
- 17.3.3 The vendor retains the right to have the animal placed on a property nominated by him or returned to his own property for further assessment of fertility for a period not exceeding six months. In the event of the animal being proven fertile within the period, the costs incurred shall be borne by the purchaser. In the event of the animal not being proven fertile within the period the costs incurred shall be borne by the vendor.
- 17.4 **LIABILITY OF A VENDOR.** Except for costs defined elsewhere in the conditions of sale, the liability of a vendor in respect of claims relating to fertility shall not exceed the purchase price of the animal(s) or to provide mutually agreed upon replacement animals.
- 17.5 **REFUNDS.** In the event of a claim being substantiated and the purchase price being refunded, the animal/s shall automatically become the property of the vendor and be returned to him or disposed of according to his instructions at his expense.
- 17.6 This guarantee shall be voided by the purchaser if
 - (a) The animal is returned to the vendor:
 - (i) in poor physical condition or with any injury;
 - (ii) tests carried out on behalf of the vendor within fourteen days of such return proved positive to any diseases which may affect the animals fertility or ability to breed naturally; or
 - (b) the purchaser has collected and stored semen from a bull or embryos from a female.
- 17.7 In the event of a dispute as to whether a lot is a breeder, such dispute shall be resolved by the vendor and the purchaser and the auctioneer, while he will use his best endeavours to assist, shall have no liability or responsibility in that regard. In the event that a lot is alleged or proved not to be a breeder, the purchaser shall nevertheless be obliged to pay the auctioneer the full purchase price and any other monies or interest payable by the purchaser in accordance with these Terms and Conditions.
18. (a) Each lot shall be at the risk of the vendor in respect of any damage or injury, whether by disease, accident or otherwise, for the period that the lot be in the custody of the auctioneer, PROVIDED THAT the auctioneer, its servants, agents and employees shall use all reasonable care to protect and control the lot while it is in the auctioneer's custody AND PROVIDED THAT when a lot has been sold, it shall be at the risk of the purchaser in all respects
- (b) If any vendor brings to the sale premises any lot which is dangerous, or infected with any disease, that vendor shall be liable for all injury, damages, costs, losses, or expenses which the auctioneer may sustain, incur or be put to either directly or indirectly as a result of the vendor so doing. The auctioneer reserves the right, at its absolute discretion, to exclude from the sale, or put out of the sale venue or dispose of, any lot which in its opinion shows signs of any disease, whether infectious, contagious or not, or of any serious fault or of being dangerous.
19. **DELIVERY** - Except at the discretion of the auctioneer no lot shall be delivered to the purchaser unless payment of the purchase money together with any additional charges incurred including those expenses incurred by the auctioneer pursuant to Condition 14 hereof, is first made by the purchaser to the auctioneer. Release of lots may be withheld by the auctioneer until personal cheques are cleared.
20. In these Conditions:
 - (a) References to "Auctioneer" shall be taken to mean as the context so admits, the selling agent or any member, subsidiary or related corporation or body, officer, agent or employee thereof, authorised by the vendor to conduct the sale of the lot;
 - (b) "Purchaser" shall have the meaning ascribed to it in Condition 1;
 - (c) "Vendor" shall mean the person or corporation upon whose account lots are offered for sale and where a stud or farm is named shall mean the proprietor of that stud or farm;
 - (d) "Lot" shall be taken to mean the animal offered for sale and/or sold by the auctioneer on behalf of a vendor.

IMPORTANT NOTICE

The selling agent, its members, subsidiary or related corporations, officers, agents, and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.

All persons who attend the sale do so entirely at their risk and the selling agent, its members, subsidiary or related corporations, officers, agents, employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.

The hammer price is exclusive of GST but GST will be applied to the final hammer price and included on the invoice.
