TEXAS

SELLING THE LARGEST AND MOST EVEN DRAFT OF 273 BULLS IN THE HISTORY OF THE STUD.

Texas Angus is set to sell the LARGEST and most EVEN DRAFT of 273 bulls in the HISTORY of the stud, including the biggest line up of RAWHIDE and DEADWOOD sons available in Australia! Additionally, we offer VOLUME BUYERS the opportunity to purchase the entire draft as PICK or PAIR, from Lot 11 to Lot 283. No other Angus sale in the southern hemisphere provides this extensive selling option. Notably, we will feature

84 brothers of Texas THUNDERSTRUCK, Australia's highest-priced all breeds bull record holder, who sold for \$360,000 at last year's bull sale. Just to give you a snapshot of the quality and evenness of this draft, the bull photos below are of Lots 281, 205 & 242!

This year marks Texas Angus 88th year of breeding stud Angus cattle. Texas Angus was established in QUEENSLAND with 22 REGISTERED HEIFERS and one Stud sire that were IMPORTED from SCOTLAND back in 1936 by the Scottish Australian Company. Every one of the 900+ females at Texas Angus all relate back to these 22 females and never has another female line ever been introduced since then.

At Texas we take TEMPERAMENT seriously. That's why we implemented a docility scoring system for both our weaners and their mothers 20 years ago. Every calf that's born at Texas Angus is weighed and tagged at birth and the mother's protectiveness is scored. Any cows that display aggressive behaviour towards us are culled at weaning as we have found a strong

correlation of the dam's behaviour and her progeny. Since implementing this system, we are able to comfortably tag every calf at Texas Angus with their mothers standing quietly beside us without any need to invest in a caged calf catcher. No dogs are allowed at tagging as our cows will become extremely aggressive.

At the end of the day, temperament is an OH & S issue for the entire beef industry and its paramount for any seedstock breeder to take this seriously. Good temperaments will not only improve meat quality, increase MSA compliance (by lowering PH levels) but increase weight gains, quicker recovery from transportation and general contentment in cattle which increases PROFITS.

The Texas herd is run like any commercial herd, we certainly DO NOT early wean to improve fertility rates, our weaners are weaned at 7-9 months like most commercial breeders. Early weaning goes against our breeding fundamentals, all our heifers and cows are expected to raise a quality calf and rebreed under COMMERCIAL REALITY in a grassland environment. All of our weaned calves go back onto subtropical grasses and then transition onto multi species crops. We are hearing too many seedstock operations opting for early weaning "for supposed management purposes" but we feel they are compromising their fertility and maternal traits as well having to lot feed the calves and some staying in the feedlot till they are sold at their bull sale!

This year we will also offer 100+ Texas pedigree bred commercial heifers that have been inseminated to THUNDERSTRUCK, ICEMAN, POWERPLAY, POWERSHIFT & QUANTUM LEAP and backed up to Texas low birth weight bulls. This is a GOLDEN OPPORTUNITY to access 100% Texas genetics of such a high quality and is the perfect avenue for anyone wanting to build or start a commercial herd with such elite genetics. And this will be Australia's first opportunity to purchase PTIC heifers in calf to THUNDERSTRUCK! The heifers will be sold in Lots of 10 and classed on type and breeding. They will start from Lots 1 -10.

For the first time we will have both online platforms Stocklive and Auctionsplus available for bidding or watching the sale of the heifers and bulls. Please refer to their pages of how to register with either online platform.

All sale bulls and females will be on display at our OPEN DAY on the 4th July 10am-3pm, as well as hosting a meet and greet with Cattle Australia's CEO & board.

We encourage you to come as it's a great way to see the bulls and heifers without the stress of sale day, be able to freely chat with Ben, Wendy or Hayden and enjoy home cooked soup, sandwiches and real coffee!

All clients and potential buyers have the ASSURANCE that our bulls we sell each year are BACKED by our continued commitment and success of BENCHMARKING our herd against all breeds and crosses in Australia's LARGEST and most competitive FEEDER CARCASS TRIALS year in year out. We have been SUCCESSFULLY COMPETING SINCE 2015 and only a select few seedstock breeders can match this commitment and willingness of publishing the actual data for the world to see! We always back up our claims with factual information and all our carcass data is continually being analysed by the Angus breedplan database. Our breeding program has ALWAYS been focused on PROFITABILITY and in a nutshell we are all about breeding functional fertile females that produce kgs/ha, MSA compliance and we all know what we are paid on and that's WEIGHT.

Warmest regards
Ben & Wendy

PICK FOR THE Pair

All sale bull lots are offered under a multi-hammer system, winning bidder can choose to take the pair or the pick of the pair not necessarily in lot order, if only one is chosen the remaining will be offered.

BUYERS INFORMATION

- HEALTH – All have the Texas Tick of Approval, buy with confidence.**
 - Sale bulls only Vaccinated for Red Water (Tick Fever) NOT Heifers.
 - Tested Free of Pesti Virus, But are NOT Vaccinated for Both Pesti Virus or 3 Day Sickness
 - 7 in 1 & Vibrio and routinely drenched and deloused
 - Examined and semen tested
 - J-BAS 8 Johnes Herd - we are free to sell bulls Australia wide including both WA & NT
 - Use bikes, dogs, and horses, and handled with low stress stock handling principles
- **TEXAS ANGUS WILL RETAIN 50% SEMEN & MARKETING RIGHTS OF ALL BULLS IN THE CATALOGUE****
 - Buyers must supply their PIC code for all NLIS's to be transferred
 - Bulls registration will be transferred on requested
- OPEN DAY Thursday 4th July. All sale bulls and heifers will be on display 10am - 3pm.
- REBATES see Rebates Notice below.
- Insurance is available from the agents at the sale.
- Delivery of each animal will be at the buyers risk after the fall of the hammer, but will be cared for by the vendors for a reasonable amount of time.
- Transport – All transport coordination will be done through acting agent in conjunction with FALLS LIVESTOCK TRANSPORT immediately after the sale. Lachie Falls is the representative (Mobile 0429 826 342). Any client wishing to use their own or preferred transport is more than welcome to do so but MUST be coordinated through Lachie Falls immediately after the sale. Texas Angus recommends Falls Livestock Transport for long distance cartage.
- Verbal instructions will not be accepted. Please complete the buyers instruction sheet included in the catalogue and present to the agents.
- Any announcement will take precedence over printed material in this catalogue. Terms and conditions of sale will be read by the agents prior to the sale.
- The sale will be held at "Doongara" under cover. Warialda APEX will cater and the MACKA's Angus steaks will be for lunch.
- The owner, employee or other affiliated personal cannot be held responsible for any accidents, but will make every effort to provide for the safety and comfort of those attending.
- Accommodation is available at the Sunflower Motel Ph: 02 6729 1344 and Royal Hotel Ph: 02 6729 1444 in Warialda and for a unique & luxurious sleeping experience try Faraway Domes which is just down the road call Kate on 0421 935 843. Also, there is an AirBnb south of Coolatai please call Erica 0448 640 551. The Wallaroo Hotel also has cabins, please contact Ange 0428 992 083. Wendy is also very happy to help with booking accommodation, please call her on 0438 376 622.
- On property air strip is available, contact the vendors for further information. Qantas flies daily to Moree (1hr away), Qantas flies daily to Tamworth (2¼ hrs away by car) and Armidale (2½ hrs away by car).
- No children shall enter any pens. This is part of our OH&S policy.

NOTICE TO AGENTS & BUYERS SALE REBATES

- A rebate of 4% will be paid to all agents who attend the sale with or on behalf of their client(s) and settle in 7 days.
- A rebate of 2% will be paid to all agents who introduce their client(s) but do not attend this sale and settle in 7 days.
- A rebate of 1% will be paid to all agents who settle within 7 days but do not introduce their client(s) or attend this sale.

PLEASE NOTE: only **ONE** of the three options can be used on any one lot.

TransTasman Angus Cattle Evaluation - June 2024 Reference Tables

PARENT VERIFICATION SUFFIXES

- PV** - Both parents have been verified by DNA
- SV** - The sire has been verified by DNA
- DV** - The dam has been verified by DNA
- #** - DNA verification has not yet been conducted
- E** - DNA has been identified that sire and/or dam may possibly be incorrect but this cannot be confirmed conclusively

RAWHIDE is a super thick heavy fleshing carcase sire that breeds true to type. Texas Angus has had the inclusive right of RAWHIDE for 2 years and will be selling the only 2 year old sons in the country. RAWHIDE is the sire of Texas THUNDERSTRUCK who sold for an Australian All Breeds Record of \$360,000 to Macka's Angus last year. Like THUNDERSTRUCK his brothers displays such body mass and fleshing ability that needs to be seen in the flesh. They are curve benders with calving ease galore, power growth patterns and so so docile. Contractors have been so impress with the sheer capacity, style and docility. 84 sons sell.

DEADWOOD is America's second highest priced bull to sell for an incredible \$900,000 USD and for good reason. The DEADWOOD sons have proven to have that extra rib and are a frame score bigger on MAVERICK and RAWHIDE but still have that style and capacity, and look like meat machines. These very stylish high performance DEADWOOD sons have scanned exceptionally well to go with their good data set. There is 34 sons to sell this year.

TEXAS ICEMAN was sold for \$225,000 back in 2021 Macka's Angus (an Angus Bull Priced record at that time) and has been used thoroughly throughout the world. He has been noted as a Sire, that once people see the quality and performance of his progeny, they re- order more semen to use back over the herd. ICEMAN progeny have proven to be super docile, has stamped his style and eye appeal on all progeny, they are super thick with real softness and length. 8 sons sell

POWERPLAY was sold in our 2020 Bull Sale for the top price and Australia's second top priced Angus for that year at \$108,000 to Kelly's Angus. He was 1,070kgs at 2 years. For such a big bull his calving ease to growth ratio is incredible and there are very few bulls with a -0.1 BW to +120 600 Days growth spread. You honesty could calve an ant to POWERPLAY. His sons will be excellent heifers bulls that have extra growth, with softness, EMA & IMF. 15 Sons sell.

Texas POWERSHIFT P632 is a full flush ET brother to Texas POWERPLAY P613 who sold for \$108,000 with all the same credentials. P632 is a little more moderate with a tad more muscle expression and is also very long, thick and deep with good feet, structurally correct and very quiet. He is a very athletic Bull that stands proud with a strong head and outlook. He too has a magnificent set of EBVs to go with such phenotype. POWERSHIFT sons were a the sire highlight of Nampara Angus SA Bull Sale this year topping at \$66,000 and 16 sons averaging \$20,500. 15 sons sell.

POSS MAVERICK - SIRE

Nicknamed ROOSTER, R746 has certainly followed his sire of breeding that sheer thickness, carcass weight and fleshing ability into his progeny. They are so so thick you really do not realise until you get behind them. Has a stellar pedigree with Texas UNDINE H638 being his dam who has bred Texas EARNL612 (\$56,000), Texas TOP GUN (\$55,000), and Texas MAVERICK S816 (\$50,000). By sale time his sons will exhibit the same fleshing attributes like the RAWHIDES - Sherman tank! 8 sons sell.

We have been on the hunt for a Hoover NO DOUBT son for some time and when Sterling Pacific was awarded the 2020 Snyder Bull Test Champion in the US with the highest ultrasound points and 674kgs at 12 months we knew he would be a great fit for Texas. His pedigree is full of maternal dominance including his dam being BEAST MODE'S full flush sister. His data has serious punch being in the Top 1% for all growth traits and his progeny are puppy dog quiet. We were one of the first studs in Australia to use him and have the 3rd highest number of progeny in the country. We now know PACIFIC blends the best over our larger roomy females. 13 sons sell.

T334 is a perfect example of the breeding qualities POSS RAWHIDE has brought to TEXAS ANGUS and a great way to start the sale. He is the paternal brother to Texas THUNDERSTRUCK who sold for \$360,000 last year to Macka's Angus. He is a heifer's 1st calf out of a highly fertile proven cow line that is known for performance and longevity. T334 is a very quiet, super deep, thick stylish, long bodied, easy doing bull that displays a nice balance of carcass quality and calving ease. He's a well structured bull with eye appeal, balance and phenotype. A bull that can be easily used on both heifers and cows and add to the profitability of your genetics with extra carcass weight and quality. And was only 35kg born.

With the whole of this year's sale selling under the Pick or Pair system, T384 is another RAWHIDE son so similar to Lot 1. T384 is also out of a very strong highly regarded cow line that goes back to TEXAS UNDINE Z36, the dam of TEXAS GLOBAL G561 who's sons have sold very well in a number of sales across Australia. He too is a big, deep, soft, heavy bodied bull, with good bone, strong features and length that will add extra carcass weight to your cattle.

T391 is another great example of how consistent RAWHIDE is breeding over these strong TEXAS maternal lines. His Dam G504 is a Maternal sister to TEXAS UNDINE Z183 who also has 5 sons in this year's sale and has produced well over 20 Stud Sires across Australia such as TEXAS MOUNT K2. Z183 would be close to being our most influential cow at Texas. T391, like his brothers, is a big, deep, thick, heavily built carcass bull with that added length. Super quiet, well structured with a nice balance of all traits.

TOP STUD SIRE. T921 is one of those young Sires that is Phenotypically so Impressive. Look at the Data on this Bull, he is BORN to PERFORM. T921 is a maternal ET brother to TEXAS ICEMAN who sold for \$225,000, TEXAS POWERPLAY (\$108,000), POWERSHIFT and NO REGRETS who are Stud Sires that have performed so well right across Australia. T921 is one very impressive large, long, deep bodied, ASHLAND son that catches everyone's eye. Look at this combination, Top 3-7% for 200, 400, 600 day & CWT, Top 9% for EMA. He is definitely one of our favourites for phenotype, quality and performance. A bull that will have a big impact on wherever he goes on carcass weight and quality to make them more profitable. He has all the Power, Presence and Profitability you could want with a strong head and outlook, slick soft skinned and is a super quiet bull with style that goes back to Texas UNDINE Z183. His Dam Texas UNDINE H647, has a stellar progeny history and has also produced many Stud Sires sold across Australia and has nearly a million Dollars in bull sales, with many more Stud Sires to come. This young Sire ticks all the boxes and is well worth the trip to come and have a look at.

T901 is yet another one of these impressive, powerfully built, thick, deep bodied ASHLAND ET sons out of TEXAS UNDINE H647. He is more moderate in frame but just as big in capacity. He is a very stylish, heavy fleshing, well balanced young Sire that is structurally very correct with a good bone, strong head and outlook, and slick skin. A bull that can easily be used on heifers and cows that will enhance carcass profitability.

Now here is a bull that catches your eye with a very different pedigree. Just look at his photo. ICEMAN/REALITY are two very proven, big carcass orientated bulls that have blended exceptionally well into the Texas herd. T419 is a big, long, good all round, slick, heavy bodied Queensland type bull bred to pack on quality kilos and only a 35kg calf. Good strong head and outlook, super quiet and has been one of the picks since he was a calf. He is a classic example of how dominant ICEMAN is on the type of cattle he produces.

TOP STUD SIRE. T873 is the 1st Mogck ENTICE son to be sold this year which is a Sire line that is proving to be a very successful productive cross over the Texas cows. His full ET brother S373 sold for \$34,000 last year who we strongly considered to keep for Stud duties. His Dam Texas UNDINE P639 is now a big part of the Texas Donor program and is a full sister to Texas POWERPLAY sold for \$108,000 and POWERSHIFT retained for Stud duties, who's dam is Texas UNDINE H647, the Dam of TEXAS ICEMAN. He too has all the dimensions we look for in a Stud Sire: phenotype, pedigree, strong maternal history and the numbers to Match. It would be very hard to find a Cow Family that has produced the amount of Stud Sires this Maternal line has. T873 is wonderful example of balanced breeding, excelling in all traits and lacking in none, backed up with a very desirable phenotype. A bull well worth considering. Look at this for a spread of numbers. Top 1% for 200, 400, 600 Day & CWT, Top 4 - 8% for DOC & EMA, plus is +2.4 for IMF.

Purchaser: _____ \$ _____

Very similarly bred bull to his pair above, with all the same attributes. These ENTICE sons are all very consistent in style and type. Big, long, deep, thick set, heavy cattle packed with muscle. Good on their feet, strong heads, slick, soft skinned and generally have a good disposition. T369 fits this description to a tee who has an EMA of +10 and IMF of +2.5 and is also out of another one of those strong, heavy base K2/REPLAY derivative cows.

Different pedigree with all the same characteristics. T359 has that balance in his genetics that gives you the opportunity to use him on both cows and heifers. He is a thick set, heavy bodied, moderate, long bodied bull being a maternal grand son of KNOCKOUT crossed over the high performing USHERETTE cow line, with a highly proven all round calving ease Sire TEXAS POWERPLAY. Just a good, highly flexible, thick based commercial bull. Maternal brother was sold for \$20,000 in 2021 bull sale.

T715 is big, long, wide base TRAILBLAZER son out of another very deep thick set KNOCKOUT cow. He is in the Top 3% for 200, 400, 600 Days, Top 7% Rib fat and Top 17% or +3.7 for IMF. These are the genetic combinations we strive to produce that have done so well in winning many feeder and carcass competitions over the last 10 year for Texas Angus. Our cattle are now known to be high performing animals that finish easily and reach the desired carcass weights and up there with the highest marbling at these events. T715 is a good, solid, long bodied bull designed to put dollars in your pocket.

T367 has the exact same history as Lot 41, for his Dam Texas ELANDINE M333 is a twin sister to the Dam of T486. When you see these bulls together, you will see just how consistent these cattle are that breed true to type. T367 is a good, honest, commercial based bull design to add fleshing, carcass weight, fertility and docility.

Completely different genetic line but similar in type. T438 is another of these TRAILBLAZER sons crossed over a very solid base dominant cow line that goes back to Texas PRIDE L600 who was sold to Moorunga Angus for \$150,000. He is a very correct, nicely balanced, fleshy bull with slick skin and good bone to go with his great spread of numbers.

TOP STUD SIRE. For a High IMF Bull, Texas U-BEAUTY U67 has certainly got that WOW factor in Power, Performance and Presence. He will be one of the 1st POSS DEADWOOD sons to be sold in Australia and has a very exciting combination of genetics with Texas PRIDE N1 as his Dam who is now a Donor Cow. She is a very correct, beautiful, big, long feminine MOUNT K2 daughter out of Texas PRIDE E30 who also has been one of our most prolific Donor cows for many years with 102 progeny at Texas alone and selling near a million dollars in progeny. She has a very high percentage of her daughters retained in the herd. E30 was sold to 3R Livestock for \$60,000 as an 11 year old cow and then a daughter of hers Texas PRIDE L600 was to Moorunga for \$150,000. You can buy with confidence knowing these quality genetics consistently produce the goods. U-BEAUTY is an Impressive, Stylish, Powerful looking structurally correct young Sire with good feet and phenotype. Where else do you find a Bull that is +5.1 for IMF and looks like this, has +4.9 SS, +84 CWT and is very safe to use on heifers.

TOP STUD SIRE. U913 is also a full ET brother to Lot 54. One very impressive large, long, deep bodied, DEADWOOD son that catches your eye. Look at this combination, Top 2% to 10 % for 200, 400, 600 day, CWT, +9.4 EMA & +3.3 for IMF. U913 is definitely one of our favourites for phenotype, quality and performance. He is a bull that will have a big impact on wherever he goes on carcass weight and quality and make his progeny so much more profitable. He has all the Power, Presence and Performance you could want with a strong head and features, slick, soft skinned and is a super quiet bull with style that goes back to that super strong maternal line of Texas PRIDE E30. This young Sire ticks all the boxes and is well worth the trip to come and see him in the flesh.

TOP STUD SIRE. Just look at his photo. It says it all. One impressive, powerful looking, young sire with all the figures to back him up. Like the bull before him, a good all round bull that could be used on heifers, but most of all, would take your cows to the next level in presence, performance and profitability. Moderate calving ease, plenty of growth, +11.5 EMA, +4.2 for IMF and Top 2% to 6% for 200, 400, 600 Day & CWT. His Dam Texas UNDINE N184 is another Donor cow that is kicking some serious goals with her calf selling for \$45,000 at our female sale and has 9 sons in the sale. Definitely another bull to look at!

This is another DEADWOOD/N184 son where I'm finding it very hard not to repeat myself, but U273 is another full ET brother which is so similar in type. DEADWOOD is proving an excellent combination of genetics over a large range of TEXAS type females adding to the balance with thickness, fleshing ability and performance to take PROFITABILITY to the next level. U273 is yet another good all round bull that would be excellent on heifers and do a good job on cows later on. Heavy, easy doing cattle that thrive and survive in most environments.

Who would of thought Texas Angus would breed a bull that is +6.0 for IMF. Texas DEADWOOD U65 possesses all the same traits of his DEADWOOD brothers with some extra size and length that comes from his Dam N10, who is a very long, large bodied MOUNT K2 daughter out Texas TOQUE D35 who was one of our original Donor cows with 60 progeny. Even though he has a good balance of all traits, U65 should have a big impact on enhancing the size and performance on smaller type cattle whilst maintaining, if not improving, carcass quality traits particularly for IMF.

This big, powerful, long bodied, young ENTICE son is a real impact Bull designed to inject performance, yield and carcass weight whilst maintaining carcass quality. His Dam comes from three generations of Donor cows that go back to Texas UNDINE Z183. She is a big, high performing, large barrelled cow that knows how to inject some serious weight and power. Once you see all 11 of her sons in this year's sale, you will understand the capacity of the genetics she injects. U127 is a long, athletic bull that walks out nicely and displays softness and fleshing. He has a nice even balance of all traits with added performance to increase carcass profitability.

The next four young Sires are a Unique Golden opportunity and last chance to obtain a son of Texas UNDINE Z183 who has already produced a million dollars worth of bulls alone. She has produced many Stud Sires that have been used right across the country over the last 15 years. We IVF'd Z183 many years ago and these are the last of her genetics to come through the system. U66 has all the makings of becoming a Stud Sire and is even more unique, sired by SCALE HOUSE which has had limited used here in Australia. He is a big, long, up standing, stylish young bull that will develop into an impressive mature sire. U66 scanned the highest EMA out of his whole contemporary. Well worth a look at!!!

TOP STUD SIRE. U51 is a 3/4 ET brother to Texas TOP GUN who sold for \$55,000 to Mundarlo Angus and World Wide Sires. Now with a couple of generations of calves on the ground, TOP GUN is a well PROVEN low birth sire that adds softness, phenotype and carcass quality to his progeny and has become a highly sort after AI Sire. Like Top Gun, U51 has a very attractive set of EBVs being +2.7 for IMF, +13.7 for EMA, in the top 6% to 17% for 200, 400, 600 Day growth & CWT, +3.2 SS. His Dam TEXAS UNDINE H638 is yet another one of the highest influential cows of the Texas Herd and is still getting flushed to date. With 96 progeny so far and many more to come, she's had 23 sons that averaged just over \$22,000 topping at \$56,000. U51 is a great example of the quality this cow can produce. He is a big, long, deep, heavy, fleshing mobile bull with a Real Sires outlook. Good structure, quiet and beautifully balanced.

Chasing a slick, big, thick, robust, powerful, high performance that is well balanced and oozes carcass quality, then put U924 on the radar. Again, out of a very proven Donor cow, Texas TOQUE J602 that has got a huge influence in the Texas Herd with 88 progeny, selling 34 bulls to \$70,000, her heifers averaging \$31,500 and she was sold to Boombah Cattle Co for \$27,000 as a 9 year old cow. His Sire Texas POWERSHIFT has also a big influence at TEXAS being solidly used for the last 5 years. One well balanced, Stylish, Impressive Sire with Phenotype hard to beat.

U117 is the 1st NEW GROUND son to be sold at Texas. We are very happy with the quality and performance New Ground has passed through to his progeny and a Sire we will continue to use. Super Quiet!!!. U117 is a good, all round, well balanced commercially focus bull who is also a maternal son to TEXAS PRIDE E30. Big history, Docile, Phenotypically and Structurally A1 and is a very flexible bull to use on both heifers and cows that will add to your Performance, Quality and Profitability.

TOP STUD SIRE. This pair to pick from, are full ET brothers. U151 has all the same dimensions of his brothers in phenotype, performance and data but seems to catch the eye of most people. Like his sire, he is a stylish, proud, strong looking young sire that expresses all the style and phenotype we look for in a bull. With his genetic base and structural correctness, U151 is the type of bull designed to tidy up a herd, boost performance and add to the quality and profitability of his progeny. His dam, Texas OMNIA N271, is structurally very correct and exceptional in Phenotype combined with the phenotype of and carcass of DEADWOOD it makes an interesting combo. Top 2% to 6% for 400, 600 Day & CWT, +3.1 SS, +9.8 EMA & +3.1 IMF. Another young sire well worth a good look at.

Phenotypically this is one very impressive Stylish Powerful looking bull to look at, who is out of POWERSHIFT & POWERPLAY's full ET Sister and is now also a very valuable Donor cow at Texas that is breeding this standard of progeny very consistently. I do believe genomics has exaggerated his birth weight considerably due to his high performance. Every other bit of his data is incredibly good, Top 1% for 200, 400, 600 Day, CWT, DOC, EMA at +17 & +3.2 for IMF. With the quality and consistency this young sire displays and has in his pedigree is the closest you will get for a Sure Thing for breeding True To Type. A very Good bull well worth a good look at!!!

T906 is another one of these full ET PRIME QUARTER sons that sold very well last year who is out of the same Dam as Texas ICEMAN, POWERPLAY, POWERSHIFT, NO REGRETS and many others. With his Dam and Grand Dam, Texas UNDINE H647 and Z183 both grossing close to a million dollars each in bull sales alone, you won't find a more recognised, secure, maternal background than this young Sire. For a high calving ease heifer Bull, T906 is a moderate, super thick, heavy flashing, powerful, strong looking sire that fattens at the drop of a hat. The older he gets, the better he looks. Top 1% for BW & FAT, +7.9 EMA & +4.9 for IMF.

The KORPORAL sons are very consistent for the traits they express so well. Strong, heavy, long bodied, mobile cattle that carry a lot of meat with good finishing ability. T908 is exactly that, and will grow into a nice, big, beefy bull as he is a maternal brother to Texas ICEMAN. In fact, we have retained a full ET brother TEXAS KORPORAL S24 in the stud who will have sons for sale in the coming years. With such strong maternal lines on both sides of the family with Texas UNDINE H647 and Z36, T908 is one stylish, good looking, well structured bull that will breed True to Type.

Purchaser: _____ \$ _____

HOW IMPORTANT IS DOCILITY IN YOUR HERD?

TEMPERAMENT would have to be our number one selection criteria at Texas! Not only are we super critical with all bulls we sell, the ones we keep, purchase and inseminate with, but every cow at Texas is analysed not only at weaning for docility but at calving as well.

For us it's an OH&S importance, we tag and process all new borns and the mother is always recorded for protectiveness. If any aggressive behaviour is displayed these females are culled and we've found a strong correlation between the dam's aggressive behaviour and how it influences her progeny's behaviour.

No working dogs are allowed when weighing and tagging new born calves as our cows will become extremely protective of their calves which is an excellent protective instinct required for wild dogs or dingos.

As a result of stringent observations of the temperament of our herd, Ben and Hayden can comfortably tag and weigh every calf (900+) with their mother standing quietly beside them without any need to invest in a caged calf catcher.

Good temperaments will not only improve meat quality, but increase weight gains, quicker recovery from transportation and support general contentment in cattle.

T429 is so typical of what the POWERSHIFT breeds; soft, thick, easy doing, quiet cattle with that extra rib and T429 is out of a daughter of one of our very good donor females, Texas USHERETTE H132. The key to producing consistent, profitable cattle is balance, not just with the numbers you look at, but with what you see in the paddock every day. T429 fits this description to a tee. A stylish, well put together animal with a rock solid pedigree and a good, even balance of calving ease, performance and carcass data to back him up. Another good all round bull that can be used on heifers, puppy dog quiet and an easy bull to look at.

T313 is a perfect example of the breeding qualities RAWHIDE has brought to TEXAS ANGUS. He is a NASA heifer's 1st calf out of another strong cow line who goes back to the great Texas OMNIA Z171 who has had 73 progeny and produce many Stud Sires and females that are a big influence in the TEXAS herd. T313 is a very quiet, super deep, thick, stylish, long bodied, easy doing bull that displays tremendous carcass quality and calving ease. He's a well structured bull with eye appeal, balance and phenotype. A bull that can be easily used on both heifers and cows and add to the profitability of your genetics with extra carcass weight and quality who was only 27kg born.

TOP STUD SIRE. T342 is another of these RAWHIDE sons that Blind Freddy will spot every time. Style, Phenotype, Power, Performance and Quality are just some of the words to describe T342. Good, strong head and outlook, thick, wide based, heavy fleshing body, slick skinned, quiet and well structured. He is a good, all round commercially based bull that would easily suit most breeding programs. His Dam Texas SECRET P110 has had 4 calves in 4 years and proving to be a very valuable breeder. She has just weaned another RAWHIDE bull calf that is just as impressive as T432.

Look at this for a Bull. One Stylish high class Meat Machine who is even better in the Flesh than his photo. His Dam Texas OMNIA Q107 is kicking goals with her 1st calf selling for \$30,000 and now producing the quality of this young Sire. This is what profitable numbers are all about, +4.6 BW to +153 for 600 Day, Top 4% to 10% for 400, 600 Day, CWT, +4.2 SS, +7.2 EMA & +3.0 for IMF and phenotypically very correct, athletic, well balanced bull that will Survive and Thrive in most environments.

T926 is another good Queensland type GEDDES son with calving ease, a strong head, outlook, slick skin, plenty of muscle that is very mobile and perfect to use on heifers and do the job on cows. He is a full ET brother Lot 23 & 24 who are out of one our most predominant ET Donor cows Texas UNDINE H638 who has over 90 progeny and 8 sons in this year's Sale. She is the Dam of Texas TOPGUN who sold for \$55,000 and Texas EARNAN for \$56,000. Two bulls that are well recognised in the stud world for the quality they are breeding. T926 is a stylish, long, heavily built, young sire that is nicely balanced across all traits.

This young Sire has 8 ET brothers in the sale and is a full ET brother to Lot 23 with all the same features. His Dam Texas UNDINE N184 comes from generations of Donor cows, whose first calf sold for \$45,000 in our female sale and first son sold for \$28,000. T876 like his brother is a moderate but super thick, strong looking ENTICE son with a great balance of numbers without lacking in any trait. Top 7% to 14% for 200, 400, 600 Day, CWT & EMA at +11.7 and is +2.5 for IMF.

Another similarly bred bull to his pair above, with all the same attributes. These ENTICE sons are all very consistent in style and type. Thick, long, deep, wide base, heavy cattle packed with muscle. Good on their feet, strong heads, slick, soft skinned and quiet. T904 fits this description to a tee who has a nice balance of all traits plus being +4.6 for SS and a EMA of +13.6, and is also out of one a strong, heavy built WESTERN EXPRESS cow.

Texas UNIDNE N500 has sold bulls up to \$32,000

Texas UNIDNE R67 dam J623 was sold for \$20,000 to Cottage Creek Angus

TOP STUD SIRE. U58 is the perfect match for this pick or the pair because he is almost a clone of Lot 143. Both these boys are full ET Sons out of one of our highest performing, long, heavy bodied Donor cows Texas UNDINE P10 we have and just look at the size, strength and capacity they display. U58 is one of those bulls that just oozes the Texas power, performance and presence. Big, strong head and outlook, plenty of bone, very long, deep, heavy fleshing body and soft skin. He will grow into a large, beefy bull designed to pack on the Kilos, add more carcass weight with that extra rib and survive and thrive in most environments. A great combination of all traits with added growth and weight. Top 1% to 3% for 200, 400, 600 day & CWT and +3.6 for IMF.

+18.5 EMA, +3.5 IMF, very positive fat, top 5% for RBY & +2.1 BW makes U293 a very high carcass quality, calving ease heifer bull that is actually a very nice stylish long bodied young bull. His Sire TEXAS QUANTUM LEAP is also a super stylish Stud Sire that was sold to Little Meadows WA for \$42,000 back in 2020 who is a Sire we continue to use. His Dam TEXAS UNDINE is another Donor cow that has continued to breed consistently well selling her first heifer for \$45,000 at our female sale.

TOP STUD SIRE. U280 is one very flexible, stylish, long bodied, easy doing bull displaying plenty of carcass quality and balance. A great combination of genetics with his Dam N184 being a deep, thick set powerful, well boned PROCEED daughter out of the very fertile UNDINE family crossed with QUANTUM LEAP's style, length and carcass quality. U280 is puppy dog quiet, has good feet and structure with great eye appeal, balance and phenotype. He's a bull that can be quite easily used on heifers and add to the profitability of your cows with carcass weight and quality.

TOP STUD SIRE. This young fellow is definitely one of Wendy's and my favourite picks of the whole sale draft and has been since he was born. Just look at his Photo! Blind Freddy can see how good this sire is. Style, Phenotype, Power, Performance and Quality are the words to describe U915. He has all the Presence of his Sire TEXAS ICEMAN and is out of another well proven Donor cow Texas USHERETTE H132 who is another favourite for Phenotype Style and Capacity. He is a very correct, athletic, big, heavy fleshing bull with a powerful head and outlook, with good bone and feet, slick, soft skinned and super quiet. U915 was equal highest scanning IMF, 3rd Highest EMA of the Autumn bulls.

U921 is one young bull that is a True STUD SIRE in the making. He is a PRIME QUARTER out of one of our most highly renowned Donor cows Texas PRIDE E30 who also has been one of our most prolific Donor cows for many years with 102 progeny at Texas alone and selling near a million dollars in progeny. She has a very high percentage of her daughters retained in the herd. E30 was sold to 3R Livestock for \$60,000 as an 11 year old cow and then a daughter of hers, TEXAS PRIDE L600, was to Moorunga for \$150,000. You can buy with confidence knowing these quality genetics consistently produce the goods. Just like his sire, U921 is a stand out for style and phenotype. Stands proud, structurally correct with good feet, very deep, wide based, heavy fleshing body and moderate in frame. Just look at the data on this young sire. This is Balance with a capital B. Low birth, good calving ease, plenty of added quality carcass traits that comes from both sides of the family. He has all the Power, Presence and Profitability you could want with a strong head and features. Soft skinned, super quiet bull with style. This young sire ticks all the boxes. Branded incorrectly, should be U921.

U148 is another wide based PACIFIC son with extra power and performance. His dam, Texas UNDINE R706, is one super thick, beautiful looking MAVERICK daughter that catches everyone's eye who is a full ET Sister to Texas TOP GUN. It is very safe bet that U148 is going to grow into an impressive, robust, super thick sire that will breed true to type. Top 1% & 3% for 200, 400, 600, +16% for Docility, +4.4 SS and +4.2 for IMF.

Yes, another PACIFIC son which is a maternal flush ET brother to Lot 62 with all the same dimensions. Very deep, thick, meaty bull and super quiet. Could easily be used on both heifers and cows and bred to survive and thrive in most environments. Another good outcross pedigree with a good even balance of calving ease, carcass and performance all blended together. A maternal line like this with his great Grand Dam Z183 producing so many stud sires and daughters that have bred on to the highest level, U81 is a very safe bet with increasing the value of his progeny and breeding true to type.

U15 in another one of these young bulls that has got the three P's, Presence, Power and Performance that earns the right to be called a Top Stud Sire. If he didn't have so much of his maternal genetics, we would have retained him and used him widely used across the herd. Having Texas PRIDE E30 as his grand dam, he was one bulls we seriously considered to keep for ourselves. His Dam L601 has had two sets of twins and 8 quality calves in 6 years and still going. You only have to see U15 in the flesh, to know how good he is! Just look at this for a set of numbers. +1.4 BW, Top 3% to 5% for Calving ease, GL & CWT, Top 8% for 600 day, +9.8 EMA, positive fat and +3.3 IM. He scanned the 2nd Highest EMA of the Autumn bulls. One Bull well worth serious consideration!!!

If you missed Lot 170, Don't Panic!!! U48 is yet another cracking good RAWHIDE son out of that Big old favourite Donor cow Texas USHERETTE H132 that is breeding the house down. She is also the Dam of Lots 159 & 160. U48 has definitely got that Stud Sire potential too and is well worth putting him on the radar. Massive growth placing him in the Top 1% for 200, 400, 600 day, Top 4% CWT, +3.9 SS and Top 6% for gestation (the most heritable trait).

U285 is the last DEADWOOD son to be offered today who has all the qualities of his 10 ET brothers in the sale today. Good calving ease, +1.3 BW and +5.0 for IMF and a good balance of all other traits. U285 has all the qualities that the DEADWOOD genetics are known for. A good, safe heifer bull designed to pack on those quality kilos. This is a good example of what the Texas' breeding program is about, and that is PROFITABILITY - live calves that grow and hit market specs so all sectors of the beef industry make money.

We saved a special one for the last Autumn Bull of the sale. U45 is the last of the IVF bulls out of the great Texas UNDINE Z183 who has produce over a million dollars in bulls alone with many Stud Sires sent Australia wide. He is the one few L519 son we have available for sale. Top 1% for FAT, +13.7 EMA & +3.7 for IMF, U45 is a nicely balanced, thick set, structurally correct carcass bull that has the strongest of maternal backgrounds to breed True to Type. Equal highest scanning IMF, equal highest RUMP fat.

T552 is another eye catching well built POWERSHIFT son to go with his pair above and look at the style and quality. He is a proud, upstanding, wide based bull that you would be proud to have in the front paddock with a great balance of numbers. He certainly adds to the performance and quality of the heifers and cows you joined him too. Three ticks on this young fellow.

T363 is another one of these GEDDES sons that has always been a nice, impressive calf from the day he was born at only 34kgs. With such a strong head and outlook, that stands proud, with a slick skin, long body, straight back and plenty of meat down the spine, T363 is certainly a bull worth looking at. Structurally correct and very athletic and has the numbers and history to match. He is a heifers 1st calf and his dam R311, is a deep, wide base MAVERICK daughter.

T730 is another good example of why these POWERSHIFT sons have sold so well over the last few years. His sons were in hot demand at this year's Nampara Sale topping at \$66,000 and 16 sons averaged \$20,500! Like his brothers, T730 is a long, deep and wide, expressing good muscle with softness. Just another good, all round, nicely balanced bull designed to cover the country.

T709 is another PACIFIC son and just look at the spread of EBVs on this young bull. He is so typical of the type PACIFIC breeds. Deep bodied, heavy fleshing with good structure, super quiet and quality carcass traits. His dam is one of those deep, heavy fleshing, highly maternal HANDYMAN cows that has a good beefy calf every year. Maternal brother was sold for \$24,000.

This stylish young heifer bull is a RAWHIDE over a smart looking 1st calf POWERSHIFT heifer with even more calving ease at only 24kgs born. Yet T326 is very similar to his brothers expressing that heavy fleshing ability, weight for age and carcass quality. He is structurally correct, walks out well, very quiet and displays a good length of body with a nice rounded back end.

Yes, it is this pedigree combination again of a RAWHIDE son out of a very thick heavy fleshing 1st calf HANDYMAN heifer that has a good, even balance of calving ease, plenty of growth and attractive carcass traits. A well structured, good all round, well shaped, easy doing, thick set bull that is quiet and fattens easily. Top 10% for growth and carcass weight.

Exactly like Lot 240, T376 is a stylish thick bodied RAWHIDE son out of a very attractive 1st calf POWERSHIFT heifer with all the calving ease you need at only 26kgs born. Yet T376 like his brothers expresses that heavy fleshing ability, weight for age and carcass quality. He is structurally correct with a strong head and outlook, very quiet, displays a good length of body and has that nice rounded back end. Top 6 - 10% CEDT, GL, 600 and CWT.

The next 5 bulls are all PACIFIC sons that are so similar in type and date. T593 is out of a long deep, super thick Mount K2/REALITY cow. Her first two sons have sold to \$30,000. He has all the traits his sire PACIFIC is known for; very soft, thick easy doing, super quiet, good feet and structure with style that would be very safe to use on heifers.

Another high calving ease heifer RAWHIDE with ample growth and carcass weight, softness and fleshing ability. Full ET brother to his pair Lot 260 and out of the powerful, high performing TOQUE cow family. Texas TOQUE N551 who comes from a long line of Donor cows, 1st son sold for \$36,000 and has 5 sons in the sale. T863 is another great example of the consistent quality these maternal lines produce year in, year out, no matter the sires we use.

As we have always done, every year we save one of our best until last and who better than another very classy, long, big, soft, heavy fleshing TRAILBLAZER son. A Bull we would be quite happy to sell as LOT 1 of the Sale. He is every bit as good as his photo and is one top quality Trailblazer son out of a strong heavy featured SANDMAN cow that goes back to Texas TOQUE D35. Like his pair, T631 is a mobile, flexible bull with moderate calving ease, plenty of performance and soft, easy doing, high fleshing carcass quality we look for to produce these highly profitable cattle. He just oozes style with plenty of meat, doing ability and is a big long thick based bull with good structure, super quiet and very consistent in type. +3.6 BW to +144 for 600 day, positive fat & +3.8 for IMF. He does have a small patch of white before the pizzle.
