2024 NT Senepols Invitational Sale

Sale Information

24/06/2024

36 Bulls

**Sale Commencing 10 am CQLX Gracemere
Helmsman & Auctions Plus Simultaneous
Auction**

GDL Rockhampton are the Selling Agents

NT Senepol's Bulls will be able to be inspected on farm at Casino up until the week prior to the sale and will be yarded for inspection on Sunday 16th of June, Silverleigh's will be able to be inspected on farm at Oakey. All Bulls (except a few that will be at Ag Grow on display until Saturday evening) will be available for inspection at the CQLX Gracemere from the 19th of June up until and including sale day. The vendors and agents will be at the CQLX Gracemere on sale day and Bidding will be occurring there.

Free Delivery to Saleyards within 500 Km's by road of the CQLX Gracemere & Casino.

Ag Grow

NT Senepols will be attending Ag Grow Emerald this year. We look forward to catching up with you there! We will have some of the catalogued bulls on display.

Simultaneous/ Helmsman Auction Information:

In a simultaneous Auction all lots are able to be bid on at once. After the first hour of the sale a timer will start at 60 seconds, the timer resets when there is bidding activity on any lot in the sale. Every time someone places a bid on any lot, the timer resets to 60 seconds. The amount of time the timer resets to gradually decreases until bidding activity stops for long enough for it to count down to zero. At this point all lots in the sale are closed. If you were the winning bidder on any lot in the sale and it hadn't met reserve you have one hour of priority negotiation time where the vendor cannot sell the lot to anyone else. After this time the vendor is free to sell the lot to whoever they please.

If you are not confident with the Auctions Plus system talk to your agent or our agents to bid for you or come to CQLX on the day.

GDL Rockhampton Contacts

Josh Heck	0409 732 676
Bill Beck	0417 762 438
Georgie Connor	0428 347 550

The Bulls

There are 36 Bulls Catalogued.

32 NT Senepols bulls comprised of:	21 x Purebred Senepol Bulls
	11 x Senegus Bulls (10 Black and 1 Red)
4 Silverleigh Senepols bulls:	4 x Purebred Senepol Bulls

The bulls will be aged between 17 & 26 months on sale day.

Preparation

The NT Senepols bulls have been prepared in a rocky hill paddock where they have had ad lib access to Rhodes Grass dominated pasture, Riverina 14% Stud Cattle Pellets, and Hay for approx. 100 days pre sale.

Delivery

We are offering free delivery to saleyards within 500 kms by road of CQLX Gracemere and Casino. See map below for area covered. This will likely be completed in the week of the sale for delivery's within 500kms of CQLX, and before the end of July for delivery's within 500kms of Casino. Further distances may be available for volume buyers, Contact Col prior to the sale to confirm.

NT Senepols Delivery Map Gracemere

Boundary Locations

-  **Dalrymple Saleyards**
-  **Bowen**
-  **Emerald**
-  **CQLX**
-  **Roma**
-  **Moree**
-  **Casino**
-  **Tamworth**
-  **Taree**
-  **Boundary**

Health

The bulls have all been treated with:

- Pestiguard Vaccine
- Longrange Botulinum Vaccine
- 7 in 1 Vaccine
- Vibrovax Vaccine
- 3 Germ Vaccine (Tick Fever)
- Bovine Ephemeral Fever (3 Day) Vaccine

They are all tick free and ready to Travel.

The bulls should be eligible for entry into WA.

Data

The bulls will be scanned by Paul Kenny a week prior to the sale. A supplementary sheet will be generated and circularized as soon as it is available via email and online. It will feature:

Weights, P8 and Rib Fat Scans, EMA, Semen Motility and Scrotal Circumference. Yearling Scrotals for most lots are printed in the catalogue. This year we have also had Genetic Breeding Values (GBV's) generated on the bulls.

The Agents

GDL Rockhampton are our agents. They will be presiding over the sale. Contact them if you need any info about the bulls or Auctions Plus and they will be more than happy to help.

Bill Beck	0417 762 438
Georgie Connor	0428 347 550
Josh Heck	0409 732 676

We are still offering the **5%** introducing agents rebate (when introduced in writing 24 hours before the sale) to encourage agents from outside the GDL network to assist our buyers. Make sure to mention this to your agents if you need their assistance.

NT Senepols Guarantee

Every bull in the sale is guaranteed to be sound and fertile at the time of sale.

If a bull becomes infertile or breaks down due to reasons other than injury, misadventure or locally acquired disease, at any time in the next 12 months, we will:

provide you with a satisfactory replacement if available, or issue you with a credit equal to purchase price minus salvage value to be used at a future NT Senepols sale.

We recommend you insure animals against injury: The agents will be able to direct you to a contact to insure your purchases.

This guarantee is in addition to the normal terms and conditions governing auction sales, and as such the vendor's decision will be final. Buyers may be requested to supply a veterinary report.

DNA

All bulls have been DNA tested by Neogen. They have been Sire Verified, Slick Gene Tested, they are 100% Homozygous Polled (as all Senepols should be) and tested for the presence of Double Muscling. The NT Draft are all BVDV (Pestivirus) Negative. Results for DNA have been presented in a table along with some other information, read on for an explanation on what it all means. If you have any questions don't hesitate to give Col or Blair a call and they will be glad to explain further.

How To Interpret the Table

Grade: How much Senepol Content is in an animal.

Purebred – 93.75% to 100% Senepol (fourth cross)

A Grade – 50% to 74.99% Senepol (first cross)

B Grade – 75% to 87.49% Senepol (second cross)

C Grade – 87.5% to 93.74% Senepol (third cross)

Grade:	Purebred
Yearling Scrotal:	38
Double Muscle:	N
Sire Verified:	Y
Poll:	PcPc
Slick:	C
BVDV:	Neg
Colour	Red

Yearling Scrotal Measurement: Raw measurement in CM taken as a Yearling (9 months-15months)

Double Muscle: Double Muscling is present in the Senepol Breed like many others. Genomic testing now allows us to test for the presence of these genes. We test for 5 different variants of the double muscle gene C313Y, E226X, F94L, Q204X and NT821. To date we have only found 2 present in our herd NT821 & F94L. When only one copy of one of these genes is present there are no known negative impacts and when using bulls with one copy of the gene in crossbreeding operations it is unlikely that the other breed/ breeds you are crossing with will carry the same double muscle gene so you will likely never have a phenotypically double muscled calf. When an animal ends up with two copies of the same double muscle gene the resultant calf will have extreme muscle expression and this is associated with dystocia, Shortened life expectancy and lower fertility.

The results in the table for Double muscling will be expressed as follows:

N – Animal has no copies of the double muscle Gene (double muscle free)

NT821 – Animal has 1 copy of the NT821 double muscle Gene

F94L – Animal has 1 copy of the F94L double muscle gene

DNT – Animal was not tested for the presence of double muscle genes

Sire Verified: DNA Testing to confirm sire of animal

Y – DNA testing has confirmed that the listed sire is correct

DNT – Animal was not DNA tested for sire verification

Poll: DNA testing has been conducted to confirm poll status. All Senepols should be Homozygous polled, meaning they carry two copies of the polled gene. We tested the entire catalogue and all bulls tested and catalogued are PcPc meaning that they are Homozygous polled and regardless of the horn status of your cow herd you should get 100% polled calves by these bulls.

PcPc – Two copies of the polled gene (100% of calves sired should be polled regardless of cow herd)

DNT – Animal was not tested for Polled status

Slick: The Senepol breed is known for its slick coat. The slick gene is a dominant gene therefore 1 copy of the Slick gene will result in the animal being visibly slick. Animals that have two copies of the slick gene will be visibly slick and should sire 100% slick calves regardless of the cow herds coat type. So if you are looking to pull the hair off and put a slick tropical coat onto Euro or British cattle look for the animals with 2 copies of the slick gene.

A – Animal carries 2 copies of the slick gene

C – Animal carries 1 copy of the slick gene

N – Animal carries no copies of the slick gene

DNT – Animal was not tested for slick gene status

BVDV: Pestivirus Persistently Infected test we have tested the draft except for to determine if they are Bovine Pestivirus Persistently Infective and they have all come back negative.

Neg – Not Persistently Infective with BVDV

DNT – Animal was not tested for BVDV status

Colour: Visual appearance of animal coat colour (no testing conducted)

Black – Animal is visually black in colour

Red – Animal is visually red in colour

Grade:	P
Yearling Scrotal:	30.5
Double Muscle:	NT821
Sire Verified:	Y
Poll:	PcPc
Slick:	C
BVDV:	Negative
Colour	Red

The first "Shane Webcke" son of the catalogue. "Shane" weighed 1212kg's as a mature bull. Tapitalee is out of a first calf heifer and seasonal conditions have been challenging during his life to date particularly the first 12 months in which we went from extreme wet to extreme dry. A tidy bull that should throw good shape into his progeny.

\$

Lot: 7

GODT20108

DOB: 3/10/2022

Colour	Red

Another "Paul Harragon" son, this one out of an exceptional CBN5315 female. Has had maternal half brothers sell well here in the past, as well as retained to use in herd. Did it very tough young during the dry. He is a beautiful soft bull that is a real standout despite the tough start to life. A combination of our best genetics.

SPECIALIST LIVESTOCK BREEDING COURSES

ACCREDITED COURSES FOR FARMERS, VETERINARIANS & YOUTH
SEEKING TO ENTER THE LIVESTOCK BREEDING INDUSTRY

Orion Training is a Registered Training Organisation delivering Nationally Accredited courses throughout Australia. Orion collaborates with industry associations such as National Herd Improvement Association (NHIA), Dairy Australia and Meat & Livestock Australia (MLA).

Orion supports:

- Farmers taking control of their breeding practice and choices;
- Veterinarians wanting to upskill and expand their services; and
- Youth seeking to enter the livestock breeding industry.

Courses are delivered on-farm and include the use of live animals. Orion's training practices and specialist Trainers are Animal Ethics Approved by Committees in Queensland, Victoria and New South Wales. Courses coming soon in Tasmania and South Australia.

Artificial Insemination of Livestock using the Recto-Vaginal Technique.

This course includes a 3-day practical component and assessment using live cows. Gain immediate expert feedback and perfect your technique. Refresher courses also available.

Successful completion results in a Statement of Attainment for AHCAIS304 Artificially Inseminate Livestock.

Pregnancy Test Livestock using the Manual Palpation Technique.

Over the 3-day practical component and under the supervision of a specialist Trainer, you will test 20+ cows at various stages of gestation.

Successful completion results in a Statement of Attainment for AHCLSK339 Pregnancy Test Livestock.

Collect Semen using the Electro-Ejaculation Technique.

Breeding soundness of a bull depends on a number of factors, including adequate semen quality. Collect semen at your convenience to align with your breeding practices.

Theory and 2-day practical component. Successful completion results in a Statement of Attainment for AHCAIS301 Collect Semen.

Microscopic Examination – Semen Morphology & Motility

Over the 2-day practical component, learn how to use a light microscope using various sample types. Add this course to collect semen and learn the analysis of morphology and motility.

Successful completion results in a Statement of Attainment for MSL973028 Perform Microscopic Examination

LIVESTOCK AUCTION TERMS AND CONDITIONS OF SALE

CHAPTER ONE - PRELIMINARY

- (a) A vendor is bound by these terms and conditions by offering livestock for sale by auction.
- (b) An agent (which includes an auctioneer) is bound by these terms and conditions by conducting an auction sale.
- (c) A buyer is bound by these terms and conditions by bidding at auction.
- (d) **Competition and Consumer Act (Cth) 2010**
It is unlawful for parties that are, or otherwise would be, in competition with each other to make, or give effect to, a contract, arrangement or understanding that contains a provision relating to:
 - price-fixing; or
 - restricting outputs in the production and supply chain; or
 - allocating customers, suppliers or territories; or
 - bid-rigging; or
 - collusive bidding.

Large fines and other sanctions may be imposed for unlawful conduct.

- (a) In these terms the expression auctioneer, agent, buyer and vendor respectively includes the servants, contractors and agents of each of them. The auctioneer, agent, buyer and vendor shall be wholly responsible for the acts and omissions of their respective servants, contractors and agents. The term "auctioneer" includes, so far as the law and context permits, the vendor's agent.
- (b) When used in these terms the expressions "companion animals" means all animals originating from the same property on a particular day. Where lots are split and sent to multiple establishments, then all of these animals shall be regarded as companions.
- The following applies in interpreting these terms and conditions:
 - The following words have the following meanings:
Fees means all levies, charges, fees, costs and other expenses incurred or relating to these terms and conditions and the sale and purchase of livestock including, without limitation, transport, levies, yard and weigh dues, cartage, advertising and rebates, and whether paid for, or incurred, by the agent;
Livestock means animals auctioned pursuant to these terms and conditions; and
Price means the amount at which the lot has been sold to the buyer referred to in clause 7 of these terms and conditions
 - plus any Fees and other expenses incurred in relation to the purchase of livestock that are payable by the buyer; and
 - plus any GST added in accordance with clause 12.
 - These terms and conditions are subject to legislation or regulation in the State in which the auction is conducted and in the event of any conflict then the legislation or regulation will prevail. The provisions of these terms and conditions are in addition to, and do not derogate from, the duties and rights of vendors, agents and buyers set out in legislation and regulation in the State in which the auction is conducted.

CHAPTER TWO - STANDARD TERMS OF SALE

- Subject to any reserve price, and to the right, prior to the fall of the hammer, of the vendor to withdraw any lot without declaring the reserve, the highest bidder shall be the buyer.
- The auctioneer has the right to bid on behalf of the vendor provided that right is notified prior to the commencement of the sale and is subject to State law.
- A bid cannot be made or accepted after the fall of the hammer unless, in accordance with clause 8, the auctioneer decides to put the lot up again.
- Prior to the fall of the hammer the auctioneer shall announce the last bid and receive any further bids. The last price called by the auctioneer at the fall of the hammer shall be the amount at which the lot has been sold.
- In the event of a disputed bid, the auctioneer is the sole arbitrator of the successful bidder or the auctioneer may decide to put the lot up again. The auctioneer's decision is final.
- The auctioneer may refuse to accept any bid which, in the auctioneer's opinion, is not in the best interest of the vendor, and need not give reasons for doing so.
- A bidder shall be deemed to be a principal unless, prior to bidding, the bidder has given to the auctioneer a copy of written authority to bid for or on behalf of another person.
- The successful bidder at a livestock auction sale must give to the auctioneer at the fall of the hammer:
 - the purchaser's name; or
 - the bid card number which identifies the purchaser; or
 - the name of the person on whose behalf the successful bid was made; and
 - the Property Identification Code (known as the "PIC") of destination.
- The auction shall be conducted on the basis that the bid price shall be exclusive of Goods and Services Tax (GST). GST shall be added after the fall of the hammer for those sales subject to GST.
- The vendor warrants:
 - That the vendor has (or will have) the right to sell the livestock at the time of delivery; and
 - That the purchaser will obtain title on completion of the purchaser's obligations under this contract including payment.
- If a buyer does not comply with any of these terms and conditions, which includes the requirements of State law, any livestock knocked down to that buyer may be re-sold by public auction or private contract in whatever lots and manner the auctioneer decides. The re-sale may be with or without notice and shall be at the buyer's risk. The buyer is responsible for all loss and expense arising out of a re-sale and is not entitled to any resulting profit.
- The buyer of livestock must pay the agent the full amount of the purchase price in immediate funds on receipt of a tax invoice. Payment is required prior to delivery unless some other time for payment is specified in an agreement between the buyer and the auctioneer that was made before the fall of the hammer. If, before delivery, payment has not been made then clauses 20 to 23 apply.
- No person may bid unless, prior to the commencement of the sale, that person has made arrangements satisfactory to the auctioneer for payment for livestock purchased. If bids in breach of this condition are inadvertently accepted, delivery shall not be given until the purchase money is paid and any law, rule or practice to the contrary is accordingly negated as far as possible.
- (a) Cattle sold on a live/weight basis that are weighed pre-sale are at the risk and expense of the buyer upon the fall of the hammer.
- (b) Cattle sold on a live/weight basis that are weighed post-sale are at the risk and expense of the buyer immediately after weighing.
- (c) All livestock other than cattle sold on a live/weight basis are at the risk and expense of the buyer upon the fall of the hammer.
- (d) Subject to this clause the sale is complete on the fall of the hammer.
 - The time for rejection is the time commencing at the fall of the hammer and ending at the first of:
 - delivery is taken by a representative of the buyer;
 - departure of the animal from the purchaser's delivery pen; or
 - one hour after the last animal is:
 - in the case of pre-sale weighing, sold; or
 - in the case of post-sale weighing, weighed.
 - During the time for rejection the buyer may reject any animal which is lame, blind or diseased where that condition existed prior to the fall of the hammer but could not be reasonably observed when the animal was in the selling pen.
 - If the purchaser rejects an animal during the time for rejection then the sale of that animal is cancelled and the animal is returned to the vendor or sold on such terms as any buyer and the agent may agree, after the agent has disclosed the reason for rejection to that buyer.
 - This subclause applies only to cattle which are sold in Queensland at auction for slaughter. The agent has responsibility for the prevention of loss or escape (but not death, sickness or injury) of those cattle from the time of the fall of the hammer, for delivery to and from the scales, to the buyer's delivery pen and onto the buyer's nominated transport. This responsibility ends at the earlier of those cattle boarding the buyer's nominated transport or sunset on the day after the sale. This

subclause does not apply if the agent makes an announcement to that effect prior to sale.

- (a) Subject to the right of rejection in Clause 18, all conditions and warranties expressed or implied by law are hereby excluded from the sale to the extent that the law allows. All lots are open for inspection prior to the commencement of the sale and are sold with all faults, if any. No compensation shall be given for any faults, imperfections, errors of description, number in or of any lots sold or otherwise.
- (b) Any claim or objection arising out of an error or misdescription in the provision of relevant information in terms of legislation or regulation concerning the National Livestock Identification Scheme (NLIS) must be made by 5:00pm on the seventh day after the fall of the hammer. No objection, requisition or claim against the vendor or agent in respect of such error or misdescription can be made after that time.
- (c) Any statements made by the vendor or the auctioneer whether in writing or orally to the effect that any female has been pregnancy tested or scored positive shall mean and require only that a certificate in writing shall be supplied to the buyer signed by a qualified veterinary surgeon or certified scanner certifying that the said female has been tested or scanned on the date specified in the certificate and that in the opinion of the surgeon or scanner was pregnant on that date.
- (d) For slaughter cattle, the agent undertakes to make every reasonable effort to ensure that any NLIS cattle device number is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.
- (e) For other slaughter livestock the agent undertakes to make every reasonable effort to ensure that the NLIS information is transferred from the saleyard PIC to the purchaser's PIC on the NLIS database no later than midnight on the day of the sale.
- (f) Where livestock have a food safety or market eligibility status derived from the National Vendor Declaration (NVD) and/or the NLIS/ERP database, the agent will inform the buyers by pre-sale catalogue and/or announce the status prior to the offering of those lots.
- If delivery is made to, or possession obtained by, the buyer or its representative before full payment of the Price, then until full payment is received, the buyer:
 - does not acquire title to the livestock;
 - holds the livestock as bailee only for the vendor;
 - must act in a fiduciary capacity in its relationship with the vendor;
 - must store the stock separately or so that they are readily distinguishable from other livestock owned by the vendor;
 - is responsible for the safety and well being of the livestock;
 - may make a bona fide sale for market value of any or all of the livestock. As between the buyer and the subsequent buyer, the sale shall be made by the buyer in its own name and not as agent for the vendor. However as between the vendor and buyer, the sale shall be made as bailee and agent for the vendor; and
 - must keep and account for the proceeds of any subsequent sale separately from its other money and hold those proceeds, together with the benefits of any rights against subsequent buyers, on trust for the vendor.
- The purchaser agrees that:
 - Clause 20 creates a registrable security interest under the Personal Property Securities Act (Cth) 2009 (PPSA);
 - The Purchaser acknowledges the rights of the Seller (and/or the Agent if Clause 25 applies) to register a financing statement under the PPSA with respect to the security interest created by this clause;
 - The Livestock are collateral for the purposes of the PPSA;
 - to the extent permitted, the Purchaser waives any right the Purchaser has under the PPSA to receive notices; and
 - the date upon which the security interest created by this clause comes into force is the first date on which livestock are delivered pursuant to this contract.
- The buyer may not make any claim against the vendor for actions by the vendor or its agent under clauses 20 or 21 and indemnifies the vendor and its agent against any loss, damage, costs, expenses, penalties, fines or claims suffered by the vendor, the agent or the buyer or any claim against the vendor exercising its rights under clauses 20 or 21.
- Clause 23 applies whenever the agent pays the vendor before being paid by the buyer, which the agent is not bound to do. The agent is then the creditor agent of the vendor in law.
- The vendor hereby gives notice to the buyer of the assignments referred to in clause 23.3.
- When this clause applies, in addition to any rights of the agent that arise by operation of law, the parties agree that, subject to clause 23.5 the agent is subrogated to all rights of the vendor under these terms and conditions against the buyer.
- The vendor acknowledges that the agent may take enforcement, repossession or other action to recover any livestock for which the buyer has not paid in full, or the Price of such livestock, owing by the buyer under these terms and conditions:
 - when this clause does not apply, as agent of the vendor (including by reselling the livestock); and
 - when this clause applies, on the agent's own behalf exercising the rights of the vendor by subrogation or assignment under these terms and conditions (whether in the vendor's name or not) and, where title to the livestock has not passed to the agent, by selling the livestock as agent of the vendor without the agent having to account to the vendor for the proceeds of sale.
- The agent may at any time, assign, transfer, securitise or otherwise dispose of all or any of its rights under these terms and conditions and any debts created pursuant to it (including, without limitation, the rights assigned to it under clause 23.3).
- The vendor hereby irrevocably appoints the agent as the vendor's attorney to:
 - do at any time and in any manner as the agent thinks fit all acts necessary or desirable to perfect or improve the rights and interests afforded, or intended to be afforded, to the agent under these terms and conditions; and
 - appoint one or more sub-attorneys to do anything that the agent may do as the vendor's attorney.
- These terms and conditions do not render the agent liable to the buyer as vendor nor entitle the buyer to set off against the agent any right the buyer may have against the vendor or otherwise.
- The buyer acknowledges that the provisions of this clause 23 are intended solely for the benefit of the agent (and its assigns) and the vendor. The liabilities and obligations of the buyer will not be in any way affected:
 - by this clause 23, other than as it expressly provides; or
 - by the failure of the agent or the vendor or either of them to comply with the terms of this clause 23.
- The buyer must pay all amounts payable to the vendor or the agent under these terms and conditions without any deduction, withholding, set off or counterclaim whatsoever, whether the benefit of a deduction, withholding, set off or counterclaim is alleged to exist in favour of the buyer as against the vendor or the agent in any capacity whatsoever or any other person including an assignor of the vendor's or the buyer's interests under these terms and conditions.
- (a) The agent agrees that he is liable to pay to the vendor the Price, less such commission as is agreed between the vendor and the agent, and in the absence of any agreement such amount as is reasonable, and less the Fees that are payable by the vendor that were incurred by the agent on behalf of the vendor in relation to the sale of the livestock.
- (b) In the event that the buyer pays the Price or part of it direct to the vendor then the agent has no liability to the vendor for the amount of such payment. Further, if the agent pays the vendor any amount which the buyer also pays direct to the vendor in respect of the same livestock, then the vendor must repay the agent that amount and the agent may debit that amount to an account held in the name of the vendor by the agent.
- (c) Regardless of whether or not a sale has occurred the agent may, but is not under obligation so to do, instead of deducting payments owed to it by the vendor, debit the amount of the commission and fees to an account held in the name of the vendor by the agent.
- (a) The auctioneer has been retained by the vendor as auctioneer for the purpose of selling the livestock comprised in the lots. The terms of

engagement between the auctioneer and the vendor do not extend to the provision of advice by the auctioneer to the vendor in relation to the safety or otherwise of the sale ring, the saleyards and the surrounding environments.

- (b) The vendor, the agent and the buyer agree to comply with their several duties under the Australian Animal Welfare Standards and Guidelines for the Land Transport of Livestock and further to consign, manage, receive, transport and handle livestock in accordance with any other or additional requirements of animal welfare legislation specific to the jurisdiction in which livestock are consigned, managed, received, transported and handled in the course of the auction process.

CHAPTER THREE - VENDOR WARRANTY FOR CORRECT PRESENTATION AND DECLARATION

- This chapter applies only in the case of livestock and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the livestock are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells the livestock to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.
- The warranty of a vendor is that livestock and their companion animals offered for sale at auction:
 - pass government and other regulatory authority requirements and inspections at the time of slaughter;
 - are of merchantable quality;
 - carry an NLIS device in accordance with State law;
 - in the case where a representation has been made in the pre-sale catalogue that the livestock have particular characteristics or are fit for a particular purpose or market, and such representations are based on information in any document, the livestock will have those characteristics or will be fit for the particular purpose or market; and
 - all information in any document provided by the vendor is true, complete and correct in all material respects.
- In the event of a breach by the vendor of the vendor's warranty and provided such breach is notified by the buyer to the agent by 5:00pm on the 7th day after the fall of the hammer then the buyer is not liable to pay the portion of the Price of such of the vendor's livestock to which the breach applies.
- However if the breach by the vendor is such that the livestock are not rejected outright but are instead downgraded then the buyer will pay the value of the livestock at their next highest and best use.
- In the case of a breach by the vendor of the vendor's warranty then the vendor will also be liable to the buyer for any further losses which the buyer might establish but the buyer will take all reasonable steps in co-operation with the agent and vendor to mitigate both the effect of the breach and the amount of any loss.
- Where a sentinel animal of a lot tests positive for chemical residue, or foreign material contamination and provided such test is certified and notified as required by these vendor warranty terms, then:
 - the buyer will be entitled to delay payment for the price of all livestock in that lot only; or
 - the vendor has the option, at the vendor's cost, of collecting the companion animals, if allowed by law; or of having the livestock slaughtered in which event the risk of further contamination will be that of the vendor. Where product integrity is potentially jeopardised, the Processor has the right to refuse slaughter and send the livestock back to the consigning property at the vendor's cost.
- The auctioneer is liable to the buyer in respect of any breach of the vendor's warranty arising out of:
 - any error, by the auctioneer, of transcription of information from the NVD completed by the vendor to the pre-sale catalogue or the buyers post-sale summary;
 - any failure by the auctioneer to notify the buyer, prior to bidding, of any breach by the vendor of the warranty of the vendor if the buyer establishes that the agent knew of such breach prior to the sale; and
 - any failure by the auctioneer to announce prior to bidding, or disclose in the pre-sale catalogue, that the vendor has failed to provide a NVD that is complete in all material aspects.

CHAPTER FOUR - OWNERS RISK FOR CONDITION OF CATTLE

- This chapter applies only in the case of cattle and their companion animals sold at auction for slaughter when the buyer is the slaughterer and the cattle are transported direct from the sale yard to the meatworks at which they are slaughtered. This chapter does not apply if the buyer is a trader who subsequently resells cattle to a slaughterer. A slaughterer is any person who pays the AMPC Processor levy.
- Owners risk reflects the producer's responsibility to provide slaughter cattle for sale that are fit for human consumption. Cattle are fit for human consumption if they are not condemned as unfit by government. Owners risk applies if the condemnation is due to a condition in the animal which the buyer establishes, by the relevant government certificate, existed prior to the fall of the hammer.
- A buyer with the benefit of owners risk protection is not liable to pay the Price of that animal to the vendor. The buyer remains nevertheless liable for all costs incurred after the fall of the hammer in transport, slaughter, testing and disposal of the animal.
- Owners risk protection is available to the buyer of cattle to which this chapter applies if all of the following are satisfied:
 - a certificate is issued by government which states the relevant NLIS RFD tag number and PIC, the date of the certificate, the reason for condemnation and that the reason for condemnation existed prior to the fall of the hammer;
 - the certificate is received by the selling agent either in its original form or by fax or electronic communication in the form of data, text or imaging by 5:00pm on the 7th day after the fall of the hammer; and
 - if the condemnation is due to chemical residue the certificate follows testing in a government approved laboratory which establishes maximum residue limits in excess of the Australian limit.
- Owners risk does not apply, and the buyer must pay for the cattle, if the reason for condemnation is any of bruising, fever, partial condemnation or emaciation.

CHAPTER FIVE - NOTICES REQUIRED BY LEGISLATION

NSW Property, Stock and Business Agents Act 2002 Warnings
Penalties for collusive practices. It is an offence against the Property, Stock and Business Agents Act 2002 for a person to do any of the following as a result of a collusive practice, or to induce or attempt to induce another person by a collusive practice to do any of the following:

- to abstain from bidding; or
 - to bid to a limited extent only; or
 - to do any other act that might prevent free and open competition.
- Severe penalties may be imposed on persons convicted of collusive practices.
- The auctioneer has the right to make one bid on behalf of the vendor if the auctioneer clearly and precisely announces that fact prior to the sale.
- Tasmania Legislation.** An auctioneer conducting a public auction must not appear to acknowledge the making of a bid if no bid was made. A person must not participate in collusive practices by way of making or receiving an unlawful promise to abstain from bidding, not to bid except to a limited extent or do any other thing which may prevent free and open competition.

WA Auction Sales Act 1973 s31 NOTICE

It is an offence to:
(i) induce or attempt to induce another person to abstain from bidding by means of a promise, expressed or implied, that the other person will have the right to elect to take over as buyer or to toss or draw lots to establish who is to become the owner;

- abstain or agree to abstain from bidding as a result of such a promise;
- knowingly enter or permit or cause to be entered in the auctioneer's record any name other than that of the actual successful bidder;
- enter in the auctioneer's record the name of the buyer other than that of the actual successful bidder; or
- in the case of successful bidder supply wrong information as to the name of the buyer to the auctioneer or to any person, firm or corporation on whose behalf the sale is conducted.

The vendor, or any person on behalf of the vendor, or the auctioneer have the right to make no more than three bids.
